CONGRATULATIONS FESTIVAL XXVIII ! Regional Festival - Flagstaff, Arizona

This past weekend culminated one of the most productive Kennedy Center-American College Theater Festivals in our region's history. Your adjudicators have responded to over 176 productions throughout Region VIII, and the Governing Board has selected what it considers one of our history's richest festival of productions.

The script and production quality of our original plays has continued to mature, and this year's festival will bring us several wonderful, student written productions representing the vast diversity of our region.

The following is a list of the outstanding productions selected for Festival XXVIII to be held at Northern Arizona University in Flagstaff, February 20 - 25, 1995:

Baby - California State University, Fullerton
Bandido - Southwestern College
Cotton Patch Gospel - Concordia University
Medea - University of La Verne
Merrily We Roll Along - California State University, San Bernardino

STILL HAS OPENINGS

ENROLL NOW

It's difficult to keep up with all the changes that are taking place in today's work environment. Many of our Supervisory Management Certificate graduates have asked if we could provide a class that would enable recipients to discuss and learn about new developments in the field of management.

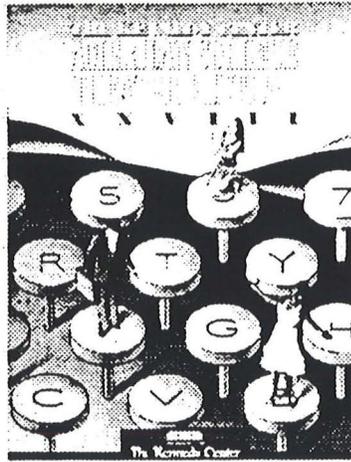

With this in mind, we designed a new three-unit course called "**Leading For The Future Now**" taught by **Chris Sliz**, on Tuesday evenings from 6 to 9 p.m. in Room 1286, Barnett Hall.

Some of the current issues that the class will focus on are:

- * Treating performance evaluations as an individual business plan
- * Turning risks into opportunities
- * Self-assessment for career success
- * Leadership and facilitation
- * Managing information
- * Providing the service and the quality that clients are demanding
- * Our "New World" employee
- * Current legal issues

AIDS DANCE-A-THON & FUNKY FAIR

SATURDAY, MARCH 9, 1996

We are fighting the AIDS epidemic on three fronts

Services to people with AIDS

We provide vital support services to people with HIV and AIDS, their care-partners, families, and friends. Services include: housing, medical treatment information, women's and children's HIV services, support groups, health care advocacy and legal, financial and crisis counseling.

AIDS Prevention and Education

Through multilingual AIDS Hotlines and materials, innovative AIDS prevention education programs and advertisements, speakers' bureaus and other community and media outreach efforts, we are working to stop the spread of HIV and AIDS.

Shaping AIDS Policy

We fight for increased government funding for AIDS research, education and care. We play a vital role in advocating to maintain the civil rights of people with AIDS, and expand access to medical care and promising medicines.

This event is produced under the auspices of Mobilization Against AIDS

Join the AIDS Dance-a-thon!

STEP ONE-REGISTER TODAY

Send in the attached card. Your Dance-a-thon sponsor form and further information will be sent to you immediately.

STEP TWO-GET SPONSORS

Ask your family members, friends, neighbors, and co-workers to sponsor you for each of the five hours you will be dancing. (For example, sponsors pledging \$2 per hour would pay \$10. Sponsors pledging \$15 per hour would pay \$75.) Raise as much money as you can.

STEP THREE-DANCE AGAINST AIDS ON MARCH 9, 1996

Join with thousands of caring men and women in a five hour Dance-a-thon to fund the fight against AIDS. The Dance will take place at Moscone Center (Howard St. between 3rd St. and 4th St.) in San Francisco. Please arrive at 6:00 p.m. to sign-in. Dance from 7:00 p.m. to midnight.

The Funky Fair

The Funky Fair is a carnival within the spectacle of the AIDS Dance-a-thon. Win a raffle! Get a massage! Have a psychic reading, or get a temporary tattoo - and remember, every dollar you spend will help the benefiting organizations make a difference in the lives of people with HIV and AIDS.

How the Dance-a-thon works

Dance for the Right Thing

On Saturday, March 9, 1996, Moscone Center will be transformed into the largest dance party in the Bay Area. Hot music, elaborate lighting and a huge dance floor will set the stage for this five hour dance extravaganza. Each hour will consist of a 4 minute dance set, followed by a 15 minute break period featuring exciting live performances. Participants may rest at any time. This is not a marathon. Complimentary food and beverages will be served.

Fundraising Prizes

All dancers who turn in \$250 or more will be awarded a special edition Dance-a-thon sweatshirt featuring the Keith Haring graphic. The sweatshirt will be available at the event for those who qualify on the night of April 8, 1996.

Because of capacity limitations, admission must be restricted to pre-registered dancers who turn in a minimum of \$75 in contributions at the door. Minors must be accompanied by a guardian and must pre-register and turn in a minimum of \$75 each at the Dance.

Santa Rosa Junior College OFFICE OF BUILDINGS AND GROUNDS

December 7, 1995

Associated Students
Pioneer Hall

Attention: Ronda Eisenhauer

I would like to make a proposal to the Associated Student that they join with the Grounds Department to purchase several new aluminum and glass recycling receptacles for the Pioneer/Doyle quad area. I have recently received information from a new vendor that manufactures large aggregate concrete recycling receptacles that look very much like our current trash receptacles. Each unit holds two containers and is labeled for glass and aluminum. The cost per unit, including shipping, is \$727.80. I feel these receptacles would dress up the quad area considerably, and we would be able to relocate the old blue and white containers to other areas of the campus, thus increasing collection as well.

As you know, since 1991, the Associated Students have been receiving 25% of all recycling revenues earned through the collection of recyclables on campus. I did a little research and found out that from the 1991/92 fiscal year through November 16, 1995, the Associated Students have received \$3,386.11. I'm not sure for what this money has been planned, but I am hoping that AS would like to help upgrade the recycling program in the Doyle/Pioneer area. Currently, there are at least 5 sets of blue and white barrels in that area.

Please let me know if you are interested in sharing the cost of replacing from one to all five of these sets. I would like to see us replace all five and can commit moneys from Grounds and Recycling to pay for half of the total cost to do this. If you need more information regarding the receptacles themselves or this proposal, please contact me at ext. 1611.

Sincerely,

Nancy Moorhead, Grounds Manager

OFFICE OF BUILDINGS AND GROUNDS

December 7, 1995

Associated Students
Pioneer Hall

Attention: Ronda Eisenhauer

I would like to make a proposal to the Associated Student that they join with the Grounds Department to purchase several new aluminum and glass recycling receptacles for the Pioneer/Doyle quad area. I have recently received information from a new vendor that manufactures large aggregate concrete recycling receptacles that look very much like our current trash receptacles. Each unit holds two containers and is labeled for glass and aluminum. The cost per unit, including shipping, is \$727.80. I feel these receptacles would dress up the quad area considerably, and we would be able to relocate the old blue and white containers to other areas of the campus, thus increasing collection as well.

As you know, since 1991, the Associated Students have been receiving 25% of all recycling revenues earned through the collection of recyclables on campus. I did a little research and found out that from the 1991/92 fiscal year through November 16, 1995, the Associated Students have received \$3,386.11. I'm not sure for what this money has been planned, but I am hoping that AS would like to help upgrade the recycling program in the Doyle/Pioneer area. Currently, there are at least 5 sets of blue and white barrels in that area.

Please let me know if you are interested in sharing the cost of replacing from one to all five of these sets. I would like to see us replace all five and can commit moneys from Grounds and Recycling to pay for half of the total cost to do this. If you need more information regarding the receptacles themselves or this proposal, please contact me at ext. 1611.

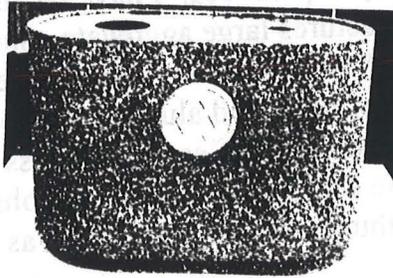

Sincerely,

A handwritten signature in cursive script that reads "Nancy Moorhead".

LEADERSHIP

A Viewer's Guide by Cultural Information Service

Made possible by GE

The person we choose as our leader tells the world who we are, what we value, and where we would like to go. But there is not just one leader of the United States, no one figure who represents the American way. Indeed, the Constitution assures a division of leadership in the government. For example, at any moment in the life of a piece of legislation, one of three leaders will play the most important role—the Speaker of the House, the Senate Majority Leader, and the President. Leaders in the judicial system may also help decide what is actually enforced as the law of the land.

Leadership is even more complicated when we consider more than the national government. Which leaders really command the attention of the people? Do politicians hold a monopoly on leadership? What about leaders in business, religion, science, academia, the arts and entertainment? No wonder most Americans would be stumped if extraterrestrials landed and demanded, “Take me to your leader!”

THE McLAUGHLIN GROUP

One way to keep up with the ever-changing face of leadership in America today is by regular viewing of “The McLaughlin Group.” Who’s in, who’s out, and why are frequently considered questions on this award-winning news and public affairs television program.

Each week host John McLaughlin introduces an important topic related to domestic and foreign policy issues. A short summary establishes its significance on the nation’s agenda. The pace is fast as four respected journalists answer questions, comment on the subject, challenge each other, and defend their positions. The program ends with a prediction from each panelist.

The regulars, in addition to John McLaughlin, are Fred Barnes, executive editor of *The Standard*; Eleanor Clift, contributing editor of *Newsweek*; Jack Germond, who with Jules Witcover writes the syndicated newspaper column “Politics Today”; Morton Kondracke, executive editor and columnist of *Roll Call*; and Clarence Page, syndicated columnist and member of the editorial board of *The Chicago Tribune*.

“The McLaughlin Group,” now in its fourteenth season, is a production of Oliver Productions, Inc., WTTW/Chicago, and WRC/Washington. The program, which usually airs weekends, is carried on more

than 300 public television stations and on commercial stations in Washington, D.C., New York, Boston, and Los Angeles, covering 98% of the country. Check newspaper listings for the station, day, and time in your area.

FOR DISCUSSION GREAT LEADERS

George Washington
Thomas Jefferson
Abraham Lincoln
Harriet Tubman
Mark Twain
Woodrow Wilson
Winston Churchill
Amelia Earhart
Albert Einstein
Mahatma Gandhi
Eleanor Roosevelt
Helen Keller
Albert Schweitzer
Martin Luther King, Jr.
Nelson Mandela
Gloria Steinem
Steven Spielberg
Maya Angelou
Ted Turner

Pick one of these leaders—or another of your own choosing—and write an essay in which you cover these points:

- What is he or she most remembered for?
- What obstacles did he or she face?
- What lessons about life and leadership can you draw from this person’s accomplishments?
- Why do you consider him or her to be a “great” leader?

PRESIDENTIAL LEADERSHIP

The modern-day President of the United States must be a multi-talented individual who can demonstrate leadership on domestic and foreign policy.

■ Rank recent Presidents according to their leadership ability:

- ___ Franklin Roosevelt
- ___ Harry Truman
- ___ Dwight Eisenhower
- ___ John Kennedy
- ___ Lyndon Johnson
- ___ Richard Nixon
- ___ Gerald Ford
- ___ Jimmy Carter
- ___ Ronald Reagan
- ___ George Bush
- ___ Bill Clinton

■ What one domestic or foreign policy decision stands out as a good example of leadership in each administration?

ADVICE TO LEADERS

In this Viewer’s Guide, the members of The McLaughlin Group offer advice to three government leaders (see columns at right). The panelists seem to agree on the point that an effective leader must be a good communicator.

■ Whose advice to President Clinton makes the most sense to you? to Senate Majority Leader Dole? to Speaker Gingrich? Do you disagree with any panelist? What advice would you give these three leaders?

■ Watch “The McLaughlin Group” each week and keep a log of “leadership tips” that emerge during the discussions. At the same time, consider what advice you would give to leaders who are in the headlines.

BLOCKS TO LEADERSHIP

Over the past five years members of Congress and advisors to the President have complained that it is getting more and more difficult to govern America. They point to fragmentation, the loss of shared values, and the difficulty in recon- antagonistic forces.

■ Identify some of the blocks to leadership and getting things done efficiently in Congress.

■ What developments have inhibited the leadership potential of recent Presidents?

LEADERSHIP THROUGHOUT HISTORY

Americans have always had mixed feelings about national leaders. A strong tradition of individualism has contributed to a resistance to giving allegiance to a group or one person. Many people also say they are cynical about leaders after years of scandal and ineffectiveness.

■ Is leadership a different ballgame today than it was 100 years ago? 20 years ago? Explain your position.

■ What factors might make it difficult for leaders to emerge in the future?

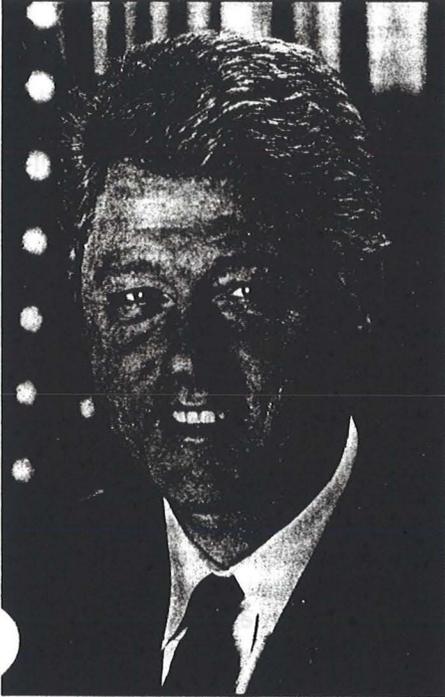

LEARNING

In *On Becoming a Leader*, Warren Bennis maintains that leaders have to vent themselves constantly. He writes, “Learning is the essential fuel for the leader the source of high-octane energy that keep

THE McLAUGHLIN GROUP'S ADVICE TO GOVERNMENT LEADERS

What is required of a government leader today? How does someone demonstrate leadership? We asked the regular panelists of The McLaughlin Group to offer leadership tips to three top government leaders. Here is their advice for President Bill Clinton, Senate Majority Leader Bob Dole, and Speaker of the House Newt Gingrich.

TO BE A LEADER TODAY, BILL CLINTON NEEDS TO

... govern, not campaign. Clinton-watchers agree that the President always has acted, and continues to act, more like a political consultant than a statesman. He needs to stop worrying so much about the machinations of political gamesmanship, and concentrate on a core agenda he values. President Clinton cannot count on a second term: if he wants to establish a legacy of leadership for which he will be remembered, he had better start now.

— *John McLaughlin*

... stick to one theme per issue. This will be entirely new for him, but it's what the public wants. Flip-flopping on everything, liberal one day, moderate the next, is politically fatal.

— *Fred Barnes*

... better define what he is for, and what he is against. He needs to look strong. He

should seek common ground with the Republican Congress, and simultaneously draw bright lines around what he cannot accept. When his olive branch is rejected, he should tell the GOP to drop dead and stick to it.

— *Eleanor Clift*

... define in the clearest terms his specific priorities for the rest of this term and for a second term, then stick with those priorities to build an image.

— *Jack Germond*

... move to and stay in the center of the political spectrum, where most of the American people are, and emphasize his dedication to fixing the problems of falling worker incomes, disintegrating families, voter cynicism, and confusion about U.S. world leadership. He should use his veto to block Republican legislation he considers extremist.

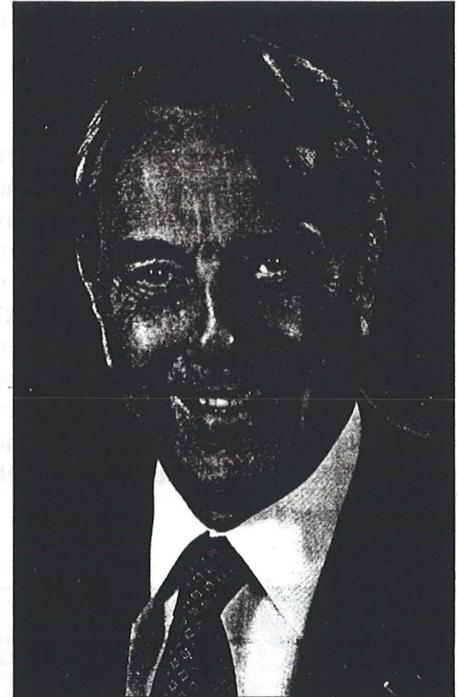

— *Morton Kondracke*

... show he is a decisive, independent thinker who believes in something passionately and without wavering. He needs to reach out to middle-American "swing" voters while showing his heavily urban, heavily working-class base that he has not forgotten them.

— *Clarence Page*

TO BE A LEADER TODAY, BOB DOLE NEEDS TO

... find a more compelling role than that of the deal-maker. Splitting-the-difference is not the stuff of which glory is made, as George Bush learned the hard way. If Senator Dole can find a few basic issues that he cares about passionately enough to abjure compromise, he may find a voice that will inspire the electorate. It will help if those issues are not, for the most part, negatively framed. Attacks, like that on

Hollywood, can be effective, but as Ronald Reagan knew, it is a positive vision that most speaks to the inherent optimism of the American people.

— *John McLaughlin*

... not be the Republican Clinton, who believes in zilch and thus never remains firm on an issue. If Dole campaigns as a conservative—which he's doing—he needs to govern like one, first in the Senate, then the White House.

— *Fred Barnes*

... stand up to the Christian Right, and quit kowtowing to the social conservatives. They will never trust him. He needs to convey a better sense of why he wants to lead the country other than the fact that it is his turn. And he needs to soften his image. People worry he is too nasty to be President.

— *Eleanor Clift*

... stop talking about the mechanics of legislation and the Senate and, instead,

offer Republican primary voters his vision of what the country would be like if he were elected in 1996.

— Jack Germond

... develop a vision about America's future—not to prove to doubters that he's more than a legislative broker, but to give himself a strategic plan to guide his presidency.

— Morton Kondracke

... show that he is not a mean-spirited grouch who will do anything to be President. Dole will be reaching out to his own party's extreme right wing until he has the party's presidential nomination sewed up. Once he does (and I am assuming at this point that he will), he needs to reach out to reassure moderate "swing" voters that he is not too unyielding to take the most sensible course for the American people, regardless of whether it offends the left or the right.

— Clarence Page

TO BE A LEADER TODAY, NEWT GINGRICH NEEDS TO

... learn to edit himself. Bill Clinton hurt himself through overexposure, and Mr. Gingrich is making the same mistake. And even more than the basic problem of over-

exposure, Speaker Gingrich has trouble reining-in his active and fertile intellect. He comments altogether too freely on whatever topic pops into his head at a given moment. This stream of consciousness monologue makes it hard to sift out the statements of the Speaker that have real importance. Focus is key.

— John McLaughlin

... be Newt. He's the most impressive legislative leader of the late 20th century, a man of ideas, vision, and last but not least, political skill. He needs to forget about personal popularity and keep driving the conservative agenda.

— Fred Barnes

... be more judicious in his public pronouncements. His eagerness to pop off on everything that passes through his frontal lobe hurts his credibility. He should work on broadening his appeal as a New Age Federalist. His opposition to regulating pornography on the Internet, for example, demonstrates he is not a party-line conservative.

— Eleanor Clift

... recognize his position of power and get control of his own rhetoric. For all his success, he has made himself too much of a polarizing figure to succeed over the long haul.

— Jack Germond

... decide who he is—a shoot-with-the-lip loudmouth or a mature national leader, the visionary idealist dedicated to creating an inclusive "opportunity society" or the defender of narrow corporate and suburban interests at the expense of the poor. Sometimes, Newt is all of these things. He needs to grow.

— Morton Kondracke

... show Americans he is not an unyielding ideologue. Polls have shown Americans to be skeptical, even scared of Gingrich as perhaps so extreme as to be outside the mainstream and cruel enough for a Dickens novel. He is already House leader, but not a leader of rank-and-file Americans. He needs to articulate his vision in ways that will touch Americans' hearts, not just their intellects.

— Clarence Page

the momentum by continually sparking new understanding, new ideas, and new challenges."

■ Which leaders have you observed seem to have mastered the art of fear.

GETTING THINGS DONE

"You know what makes great leadership?" President Harry S. Truman once remarked. "It is the ability to get men to do what they don't want to do and to like it."

■ Which men or women in recent history have made a name for themselves by getting things done, especially unpopular things? Although you may want to focus on government leaders first, consider also leaders in business and other arenas.

■ What management skills are needed to "make people do what they don't want to do and to like it"?

CHARISMA

In our media-oriented culture, many citizens still tend to be most attracted to flashy politicians who have that almost indefinable quality called "charisma." Historian Richard Morris has a different response: "Do we really need the charismatic individualistic leadership that the world boasted in its infancy? Perhaps our century has had a surfeit of charismatic figures. Today we could do with honest ones."

■ How important a factor is the charisma of a leader to you? Do you agree with Morris that this quality is overrated?

■ Which political or civic leaders can you point to who have gained power and respect from moral stature rather than charisma?

TRANSFORMATIONAL LEADERSHIP

In his classic work *Leadership*, historian James MacGregor Burns posits that most Americans want "transformational leadership" which he sees as "boldly interpreting the nation's conscience" and lifting people "into their better selves."

■ Which leaders in recent history have demonstrated transformational leadership?

COMMON PURPOSE

For over 50 years, the great task confronting totalitarianism was at the heart of the American mission. A number of

LEADERSHIP SURVEY

Everybody has an opinion or two about government leaders. But what do you think about other leaders and leadership in general? Take this survey to see what you expect of all kinds of leaders.

1. Organize the following ingredients of leadership according to their value for a leader, with one (1) being most important and twenty (20) being least important.

- | | |
|--------------------|---------------------|
| ___ competence | ___ management |
| ___ honesty | ___ talent |
| ___ intelligence | ___ organizational |
| ___ vision | ___ skill |

| ___ enthusiasm | ___ sion-making |
| ___ fairness | ___ desire for |
| ___ sound | ___ innovation |
| ___ judgment | ___ respect for |
| ___ good listening | ___ tradition |
| ___ skills | |

2. Do you believe that leadership is something that can be learned or is it something one is born with?

3. Some cultural commentators lament the "dearth of leaders" today. Do you think the country needs more political, religious, science, business, or artistic leaders? Why?

4. What is your response to the idea that the old model of a leader (a cop, controller, analyst, and drill sergeant) is being replaced by a new model (a coach, cheerleader, inspirer, and visionary)?

5. Have you ever aspired to being a leader? If you have, what were your reasons for doing so?

6. In your own experiences in leadership positions (whether on a baseball team or as an organization president), what have you found to be most fulfilling about the role? What challenges are the most frustrating?

7. How can schools, businesses, and community groups cultivate and encourage leadership?

8. Some people contend that we don't need more leaders, we need better followers. Do you agree? Are you a good follower?

9. What is the best book you have read about leadership? the best movie about a leader? the best biography of a leader?

10. Who would be on your list of the four greatest leaders of all time? Why did you choose each of them?

11. Which foreign leaders today do you admire the most? Why?

12. Who is the best leader you have personally known? What were his or her strengths?

13. Make a list of up to five people you are keeping your eye on because you are convinced they will be future leaders.

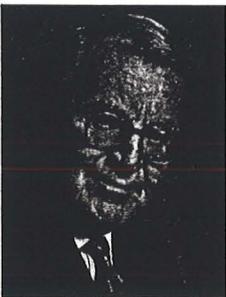

14. What evidence can you cite to prove that the leadership pool is broadening (or narrowing) in America? Where do you think new leaders will come from?

15. Are national leaders important to you? Do they affect the quality of your life?

TAKE ME TO YOUR LEADER

For fun, we asked The McLaughlin Group to answer the question below. Here are their choices. How would you answer?

If extraterrestrials asked me to take them to my leader, I would introduce them to

... Tony Bennett

... Forrest Gump

... Pope John Paul II

— Morton Kondracke

... Newt Gingrich

... Colin Powell

political and cultural commentators have suggested that instead of putting all our emphasis upon finding people to lead America, we should now concentrate on identifying a common purpose which most citizens can support with enthusiasm.

■ Debate: Ideas, not people, are the real leaders. It's not who leads but what they stand for.

■ When you hear the phrase, "America is the leader of the world," in what areas do you think we are leading? In what areas do you wish we were leading?

CITIZENSHIP

Benjamin Barber has studied democracy in the United States from many different angles. In an interview, he stated: "Our dilemma is not the absence of leaders but a paucity of values that might sustain leaders; not a failure of leadership but a failure of followership, a failure of popular will from which leadership might draw strength."

■ Do you agree or disagree with this analysis? On what grounds?

■ What can be done to encourage good citizenship?

TO: DISTRIBUTION

This is a status report on the RFP to provide student dial-up access. Evaluating the RFP are Dave Johnston, Rich Abrahams, Will Baty, Jay Field, Tim Bosma and Bob Schooling. Please excuse me if you get more than one copy. It means you're on more than one distribution list that I used.

We received four bids. Two were from large companies and two from local Internet Service Providers (ISP). The two bids from larger companies were substantially more expensive and provided fewer connect hours.

The two local companies offered a full range of services and unlimited connect hours. One company's rate was \$10 a month and the other was \$12. Both companies have a Petaluma point of presence.

The evaluation team will be doing site visits and getting answers to some detail questions. If you have any specific questions, please E-Mail them to me.

At this point, we're seriously looking at the option of simply providing students with a comparison of the two local vendors and the student would choose. Of course, since no contract is involved, the student could choose any ISP they wanted.

Earlier options being considered, included a college involvement where the vendor would pay the school a fee, for each account, in return for putting equipment on campus and being able to validate student information. We are not considering this option any longer.

Feel free to share this information with anyone who is interested. We would probably discontinue the student dial-up access effective with the end of the Spring semester. NOTE: this does not affect the provision of student accounts for use in on-campus labs.

Re the status note I sent you on the dial-up access. This means that it's getting close to the point where we'll want to know if there is any financial help for low income students. Of course, this will only be appropriate if they have a home computer and a modem. What do you think?

THE COLOR OF FEAR

Santa Rosa

a film by Lee Mun Wah

Lee Mun Wah will be at Santa Rosa Junior College on Monday February 26, 1996 at Plover Library room #1 from 12:00PM to 4:00PM presenting his movie.

WHEREAS, the Association of Students is the student voice in the college

WHEREAS, providing information, answering questions, and participating in the election process to increase the turnout of students

WHEREAS, we acknowledge the pain and anguish that racism has caused in the lives of eight North American men of Asian, European, Latino, and African American descent. One by one, the men reveal the scars that racism has caused them; the defense mechanisms they use to survive, their fears of each other, and their hopes and visions for a multicultural society. Out of these confrontations and struggles toward understanding and trust emerges an emotional and insightful portrayal into the type of dialogue most of us fear, but one that will happen sometime in our lifetime.

Trustees to create a supportive environment for all students

WHEREAS, student opinions are vital to the electoral process and the success of the college

WHEREAS, issues of campus safety, student elections, and the quality of education are of paramount importance to the student body

THEREFORE BE IT RESOLVED that the Associated Students sponsor a Voter Registration Drive on March 26 primary.

THEREFORE BE IT FURTHER RESOLVED that the Associated Students of Santa Rosa Junior College continue their efforts by sponsoring a Voter Information Table to inform students of how and where to vote on Election Day.

Lee Mun Wah is a community therapist, poet, and filmmaker. His 1993 film, *Stolen Ground*, about racism toward Asian Americans, won the Certificate of Merit at the 1994 San Francisco International Film Festival for Best Documentary. Since April 1994, *The Color of Fear* has been viewed by over 17,000 people. Recently, the film was awarded highest honors by the 1995 National Educational Media Competition. The film has been shown to over 9,000 federal employees in U.S. departments such as Treasury, Defense, Forestry, and Social Security.

Gender Equity: General Information
Sue Carrell, Gender Equity Coordinator (ext #: 2601)

What is Gender Equity?

Colleges were first required to appoint Gender Equity Coordinators in 1979 to qualify for a small sex equity allocation. Gender equity programs were established on each campus developed a national, regional and state-wide equity network.

In 1984 the *Carl D. Perkins Vocational Education Act* mandated programs to eliminate sex bias and stereotyping, and to provide much needed support for at risk members of the population, the disabled, Single Parent and Homemaker Programs (New Horizons) with vocational education assistance funds (VEA).

At this time an additional target group was added: girls and women 14-25. This increased support for elimination of sex bias and single parent/homemaker services was stimulated in large part by the growing number of women and children living below the poverty level.

Each district is required to appoint a Title IX Coordinator according to the provisions of Title IX of the Education Amendments of 1972. There are no funds attached to this act. It is a regulatory act, while the Perkins Vocational Education Act is a funding act--the carrot, Title IX is the stick. The overarching objective of "Perkins" is to assist in the development of a well-trained work force. The authors of the Act understood that this cannot happen without the inclusion of the under-served populations.

What is the difference between a Title IX Compliance Officer and Gender Equity Coordinator?

The Title IX Coordinators have district-wide responsibilities. (Districts have the option to appoint campus Title IX Coordinators) The Title IX Coordinator is responsible for assuring that all the district's programs, services and activities are free from sex discrimination. The Gender Equity Coordinator is responsible for promoting gender equity within the confines of the vocational education programs, activities and services, in accordance with the Perkins Vocational Education Act and its implementing regulations. In contrast, the Title IX Coordinator is responsible for assuring that there is no sex discrimination in any of the district's programs and activities, in accordance with Title IX and its implementing regulations.

What is the Gender Equity Advisory Committee? and What Does it Do?

This committee is comprised of staff, faculty, student(s) and members of the business community. It meets once a month (2nd Thursday) in Senate Chambers (lunch is usually served). Members look at campus climate, curricula, gender statistics, and other resources. In addition, it seeks to build better communication links with those in the general public and private business community who have an interest in the area of gender equity and makes recommendations when appropriate.

What is the scope of the SRJC Gender Equity Advisory Committee today? and what are the plans for the future?

Given the current political climate, it is likely that the Carl Perkins Act will be repealed soon and FY96 will be the last year of funding for Perkins as we've known it. No one knows if, or how, any of these worthwhile programs will be implemented in the future. Lack of Perkins money does not require that the Gender Equity Advisory Committee be disbanded. It may, in fact, allow the committee to consider a much broader range of activities than previously, when activities were confined only to vocational education. This is the challenge before the present committee and we need input from students.

THE COLOR OF FEAR

a film by Lee Mun Wah

Newman Auditorium, Santa Rosa Junior College
Latecomers not admitted

Screening of the film (90 minutes) and discussion led by
Producer/Director Lee Mun Wah

Sponsored by Santa Rosa Junior College
Associated Students, Arts & Lectures, Multicultural Events and Staff Training
For information phone Community Education - 527-4372

The Color of Fear is about the pain and anguish that racism has caused in the lives of eight North American men of Asian, European, Latino, and African descent. One by one, the men reveal the pain and scars that racism has caused them; the defense mechanisms they use to survive, their fears of each other, and their hopes and visions for a multicultural society. Out of these confrontations and struggles toward understanding and trust emerges an emotional and insightful portrayal into the type of dialogue most of us fear, but hope will happen sometime in our lifetime.

Lee Mun Wah is a community therapist, poet, and filmmaker. His 1993 film, *Stolen Ground*, about racism toward Asian Americans, won the Certificate of Merit at the 1994 San Francisco International Film Festival for Best Documentary. Since April 1994, *The Color of Fear* has been viewed by over 17,000 people. Recently, the film was awarded highest honors by the 1995 National Educational Media Competition. The film has been shown to over 9,000 federal employees in U.S. departments such as Treasury, Defense, Forestry, and Social Security.

OFFICE OF FINANCIAL AID

MEMORANDUM

DATE: January 16, 1996

TO: Clare Munson

FROM: Rick Iwata *Rick*

SUBJECT: O'Meara Grants

As I mentioned at the last Scholarship Committee meeting, we have been contemplating new 1996-97 O'Meara criteria that are more synchronized with our normal financial aid processing. What do you think of these?

- ① First year student ~~preferred~~ (no prior college units)
2. Enrolled in 15 or more units of which at least half are applicable to a degree or certificate.
3. Lower income and higher need student (EFC < 500)
4. Must have filed a FAFSA and completed their file.
- ⑤ ~~Must meet current financial aid satisfactory academic progress requirements.~~
(GPA > 2.0, < 72uc, degree, certificate or transfer goal, not subject to dismissal, etc.)

Students meeting these criteria will be packaged with a \$250 grant on a first-come, first-served basis as they are processed by the Technicians beginning in March 1996 and continuing until the \$50,000 is awarded. We would discontinue the present special application process.

BLACK & BROWN GET DOWN!

Sonoma State University- Tuesday, March 12, at 8 p.m. in the Warren Auditorium, join Elena Featherston and Elizabeth Martinez in **Black & Brown Get Down**; a dynamic exploration of the relationships between African Americans and Latinos. Tickets for the discussion are \$5 students and \$8 general.

The workshop was prompted as a result of the tactics used by California advocates of Proposition 187, Proposition 184, and the Civil Rights Initiative who used strategies aimed at promoting tension and distrust between the two cultures. The duo is promoting the importance of building an understanding and a unity between the two cultures by engaging the audience with the use of words, slides, and music.

Featherston a self described "visionary hell-raiser," is a writer, filmmaker, workshop leader. She is an outspoken activist for human rights and has appeared on many radio and television shows across the U.S. and Europe.

Martinez is also an activist as well as a teacher, and writer. She has been active in many movements over the last 50 years, making her an expert on many topics.

These two insightful women have been bringing their discussion to audiences around the country for over a year. It is definitely not one to miss out on.

Tickets are available at the Sonoma Student Union and Copperfields Books. This discussion is sponsored by AS Productions, the SSU Student Union, The InterCultural Center, and The Women's Resource Center. For more information, call 664-2382.

ACADEMIC FREEDOM VS. CIVIL RIGHTS: AN ETHICAL DILEMMA

*"THERE IS A DANGEROUS
DIVERGENCE BETWEEN WHAT MOST
FACULTY MEMBERS THINK
ACADEMIC FREEDOM MEANS, AND
WHAT THE COURTS SAY IT IS."*

- WILLIAM KAPLAN

When worlds collide, there is unavoidable chaos, conflict, and confusion. This is especially true in the moral, ethical, and politically-charged hotbed where freedom of speech clashes with civil rights in academic settings. In dealing with issues such as sexual harassment and racial discrimination, do civil rights override first amendment freedoms? If so, is the concept of academic freedom just a myth?

If these issues concern you, join us for an enlightening interactive teleconference. We will examine how colleges, universities, and members of the campus community can address the conflicts inherent in an environment rife with pitfalls and perils, including personal liability and institutional costs.

CALIFORNIA IS THE MELTING EDGE
Look at California, where the quintessential melting pot has become a churning cauldron, filled with the turmoil of the recent and dramatic cultural demographic shift in areas such as the L.A. basin. What are the realities of administering education in a minority-majority society?

Focus on the Future: This teleconference will focus on the increasing conflicts in institutions because of the changing demographics of student populations and the concomitant governmental insistence that the civil rights of diverse populations be protected.

What: National teleconference
When: Thursday, March 7, 1996
10 am - 12 pm PST
Where: Your downlink site
Why: To encourage thoughtful dialogue and foster the exchange of ideas on important ethical issues and challenges which have yet to be addressed

You will have the opportunity to phone in and participate in a compelling dialectic with the panel and studio audience. Participants include representatives for OCR, EEOC, and the ACLU.

I say it will never happen, and to help make my point consider the following:

"Computers in the future may weigh no more than 1.5 tons."

--Popular Mechanics, forecasting the relentless march of science, 1949

"I think there is a world market for maybe five computers."

--Thomas Watson, chairman of IBM, 1943

"I have traveled the length and breadth of this country and talked with the best people, and I can assure you that data processing is a fad that won't last out the year."

--The editor in charge of business books for Prentice Hall, 1957

"But what ... is it good for?"

--Engineer at the Advanced Computing Systems Division of IBM, 1968, commenting on the microchip.

"There is no reason anyone would want a computer in their home."

--Ken Olson, president, chairman and founder of Digital Equipment Corp., 1977

"This 'telephone' has too many shortcomings to be seriously considered as a

means of communication. The device is inherently of no value to us."

--Western Union internal memo, 1876.

"The wireless music box has no imaginable commercial value. Who would pay

"Who the hell wants to hear actors talk?"

--H.M. Warner, Warner Brothers, 1927.

"I'm just glad it'll be Clark Gable who's falling on his face and not Gary Cooper."

--Gary Cooper on his decision not to take the leading role in "Gone With The Wind."

"A cookie store is a bad idea. Besides, the market research reports say America likes crispy cookies, not soft and chewy cookies like you make."

--Response to Debbi Fields' idea of starting Mrs. Fields' Cookies.

"We don't like their sound, and guitar music is on the way out."

--Decca Recording Co. rejecting the Beatles, 1962.

"Heavier-than-air flying machines are impossible."

--Lord Kelvin, president, Royal Society, 1895.

"If I had thought about it, I wouldn't have done the experiment. The literature was full of examples that said you can't do this."

--Spencer Silver on the work that led to the unique adhesives for 3-M "Post-It" Notepads.

"So we went to Atari and said, 'Hey, we've got this amazing thing, even built with some of your parts, and what do you think about funding us? Or

we'll give it to you. We just want to do it. Pay our salary, we'll come

work for you.' And they said, 'No.' So then we went to Hewlett-Packard, and

they said, 'Hey, we don't need you. You haven't got through college yet.'"

--Apple Computer Inc. founder Steve Jobs on attempts to get Atari and H-P

interested in his and Steve Wozniak's personal computer.

"Professor Goddard does not know the relation between action and reaction

and the need to have something better than a vacuum against which to react.

He seems to lack the basic knowledge ladled out daily in high schools."

Description: Many committees, many meetings, and then some more meetings,
and then Umbrella committees and subcommittees and some more meetings.
Things that are decided in the subcommittee get discussed and re-decided
in the committee, then re-discussed and re-re-decided in the Umbrella
committee, then there are some more meetings, more discussions, more
decisions.....

Theory: Faculty will have more input, students will have more input, and
we will all be more "empowered"

Practice: Faculty and students do have more input and "one-sided
decisions" are less common. OTOH, Things sometimes get bogged down in
committee meetings, groups often get less done than individuals could,
finally some people will try to "take charge" of some particular aspect
causing others to cry out that this violates the principles of shared
governance. Issues come up on occasion that need immediate attention but
don't "fit" the faculty/student schedules (for instance, during the
summer). However, even though it is a very time-consuming process, most
things balance out.

Thoughts: I think Shared Governance is great for small institutions,
groups that work well as a team, and for the more simple issues. When
there are power struggles, "warring" political factions, very complex
issues and/or things that require quick action, there can be problems.
We
started this process shortly after I became full-time so I don't really
have anything to compare it to.

Whoops...gotta run to a meeting.....bye! ;^)

Dear Faculty Member:

On **Wednesday, March 20 from 11:00am-2:00pm and 5:30pm-7:00pm, and Thursday March 21 from 11:00am-2:00pm** a free screening program will be conducted to identify carriers of Tay-Sachs Disease, an inherited, fatal, infant disorder. This simple blood test, available in the Doyle Student Lounge on these days, can identify healthy individuals who carry the recessive gene for this condition. Through carrier detection and other recent advances in medical genetics, the tragedy of this illness can be avoided. Please remember: ANYBODY CAN BE A CARRIER.

We need your assistance to help educate the college community about Tay-Sachs and our free screening program. Allow us to offer your classes a 5 minute announcement or 15 minute video presentation when convenient between March 5 and March 19. Your support and advanced presentation planning is essential to the success of this program. Please return the attached sheet as soon as possible.

Lastly, please inform your students that we need volunteers. It is a short time commitment which would enable them to gain health education and public speaking experience. Interested students should come to **Plover Library , Room 1, Monday, March 4, from 12:00pm-1:00pm** for volunteer orientation or contact **Susan Quinn or Lyn Cessna at Health Services (x4445, 1575 Emeritus Hall)** as soon as possible.

We appreciate your assistance in publicizing this opportunity for students.

Pick one significant goal, then achieve it!

It's time to stop dating checks "1995"! Yes, 1996 is now well under way, and by now you've probably made an assessment of what you achieved in 1995. Perhaps you've also prepared a new set of goals to aim for in '96. But if not, I'd like to suggest something that could make a big difference in your success for this year.

One new goal

Most of us get caught up in fighting the fires of day-to-day existence. Many people think the pace of life is accelerating and everyone is too busy. But we all still have 24 hours in the day, and we all still have time to accomplish things that we really want to.

I suggest that you pick one significant goal for this year that you wouldn't normally accomplish in your spare time. By committing to one goal, it will be much easier to devote half an hour a day to it.

It doesn't matter what this goal is, as long as when you've accomplished it, you'll agree that it is something that moves you ahead. For me, it will be writing another book in 1996. For you, it might be taking a class on computers at the JC, learning a skill that will get you ahead on the job, or setting up a systematic marketing program that cumulatively builds your business. Of course, you can choose personal goals, too, such as learning to ski or speed read. But

I'm focusing here on things that will put you in a better position business- and financial-wise.

Why make excuses?

People have a lot of excuses for not allot-

ting time to accomplish things that move them ahead. Once, I asked a classroom of students if they would work ten years in the salt mines if at the end of the ten years they were given a million dollars. Most of them said no, citing excuses ranging from their being too old, to they would have done it ten years ago, to it's not worth it.

All you need to do is pick a goal that is worth it to you. You'll be surprised how much can be accomplished easily. For example, writing a book or learning a new language seems like an overwhelming task. But you can accomplish a lot by working just one hour a day for 25 days on your goal. Almost all of us have an hour that we can

sneak out of our day instead of watching television or sitting and thinking about what we *should* be doing.

Of course, that first 25 hours won't get you a finished product. But once the foundation is laid, it becomes much easier to continue sitting down every day and doing a little more. For example, once you know the basic vocabulary and the basic syntax, it becomes easier to memorize a few new vocabulary words every day or to talk to someone in the language briefly every day.

Get it done

This isn't rocket science. People have known about the power of goals forever. Yet, most of us don't use this power to advance ourselves.

Forget New Year's resolutions. Try to pick a meaningful goal for yourself that, when you've accomplished it, you agree it has moved you ahead in your business or career. Then, at this time next year, you'll be able to look back on a substantial gain and know you can do the same next year.

Ten caution signals of potential business problems

Suppose you're driving down a scenic country road on a beautiful summer day. The radio is playing, one arm is out the open window, and the wind is blowing through your hair. Suddenly, you see wide vertical stripes across the road and a round yellow sign indicating a railroad crossing. Most likely, you would respond to this caution signal by slowing down, putting both hands on the steering wheel, and looking up and down the track.

The caution signal does not necessarily mean that a speeding locomotive is coming at you, but it alerts you to the fact that the

held together with rope and wire. At the same time, the company's principal competitor in the vinyl siding business used the latest technology and, for a comparable dollar expenditure on equipment, produced twice as much product in the same time

For instance, a \$40 million scrap dealer depended heavily on the price of shredded metal. After a sharp decline in steel prices, he attempted to compensate for stocking too much inventory when prices were high by speculating in the scrap steel futures market. Unfortunately, he made a number of wrong predictions, and as a result, the business failed.

H. J. RES. 84

To commemorate the birthday of Cesar Chavez.

IN THE HOUSE OF REPRESENTATIVES

MARCH 30, 1995

Mr. FILNER (for himself, Mr. TORRES, Mr. MARTINEZ, Mr. PASTOR, Mr. SERRANO, Mr. BROWN of California, Mr. TUCKER, Mr. GONZALEZ, Ms. PELOSI, Ms. VELÁZQUEZ, Mr. GENE GREEN of Texas, Ms. WOOLSEY, Mr. McDERMOTT, Mr. TEJEDA, Mr. ROMERO-BARCELÓ, Mr. MINETA, Mr. KENNEDY of Massachusetts, Ms. LOFGREN, Mrs. MINK of Hawaii, Ms. ROYBAL-ALLARD, and Mr. COLEMAN), introduced the following joint resolution; which was referred to the Committee on Government Reform and Oversight

JOINT RESOLUTION

To commemorate the birthday of Cesar Chavez.

Whereas Cesar E. Chavez was born March 31, 1927, on a small farm near Yuma, Arizona, and died on April 23, 1993;

Whereas the grandson of a Mexican immigrant and settler, he grew up working with migrant farm workers during which time he developed a strong work ethic and a respect for the farm workers his father called "the children of God";

Whereas Cesar E. Chavez was himself a migrant farm worker, picking grapes, melons, beans, and other staple crops at low wages and for long hours;

Whereas at the age of 18 Cesar E. Chavez entered the United States Navy and served his country with distinction for 2 years;

Whereas as early as 1949 Cesar E. Chavez committed himself to organizing farm workers so that together they could campaign for safe and fair working conditions, reasonable wages, and decent housing;

Whereas in 1962 Cesar E. Chavez founded the National Farm Workers Association, predecessor of the United Farm Workers of America, which brought hope to farm workers that they might one day realize the basic protections and workers rights to which all Americans aspire;

Whereas, through his commitment to nonviolent social action, Cesar E. Chavez brought dignity, respect, and self-worth to the farm workers who organized themselves, and became an inspiration to students, other Americans, and people throughout the world;

Whereas Cesar E. Chavez was an advocate for nonviolence and is an example for America at a time when violence has penetrated every level of our society;

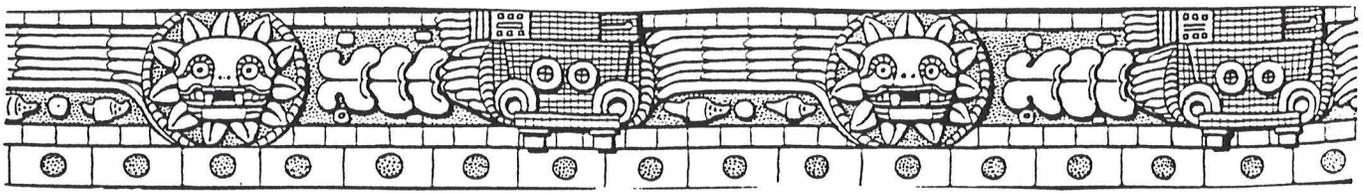

Whereas Cesar E. Chavez and his family along with other farm workers sacrificed personal time and opportunities to focus their commitment and efforts on behalf of farm workers and the poor; and

Whereas Cesar E. Chavez lived alongside his campesino brothers and sisters in humble surroundings and upon his passing was laid to rest where he lived and worked for 23 years on the grounds of the headquarters of the

United Farm Workers of America, known as Nuestra Señora de La Paz (Our Lady Queen of Peace), located in the Tehachapi Mountains at Keene, California: Now, therefore, be it

1 *Resolved by the Senate and House of Representatives*
2 *of the United States of America in Congress assembled,*
3 That Cesar E. Chavez be honored for his tireless commit-
4 ment to improve the plight of farm workers and the poor
5 throughout the United States and for the inspiration his
6 heroic efforts gave to so many Americans to work non-
7 violently for justice in their communities and that a Fed-
8 eral holiday be recognized throughout the United States,
9 and that all Americans be encouraged to commit them-
10 selves to working for justice through nonviolence in their
11 communities and remind themselves of the work of the
12 people who put food on the tables of America.

RE: LEONARD PELTIER RALLY BUDGET

I'm officially requesting much needed funds for a worthy humanitarian cause. The cause, is the awareness of Native American political realities and the affects of it. Presently, we are sitting and living on Pomo and Coastal Miwok land. The Coastal Miwok were targeted by the Eisenhower administrations "termination" project in which Indians would be moved to the city for potential "acculturation and assimilation". As a result of racism and anti-Indian sentiment by the dominant culture and white majority, desparity set in and all the negative/fatal realities followed. Presently, the Coastal Miwok have been struggling for three years to gain federal recognition, federal anthropologist declared them extinct. They need federal recognition in order to attain federal programs and land/spiritual rights. Many of the lumber and grower interests are not in favor of federal recognition, thus they contribute moneys to candidates that decide in their interest. Like the Coastal Miwok the Lakota have dealt with treaties gone sour and desparity.

The 1995 - 6 Women's Basketball team is requesting additional financial support from the Associated Students to fund the purchase of championship T shirts for the team and staff.

With an 11-3 record, the Lady Bear Cubs won the Valley Division of the Bay Valley Conference and have been seeded fifth in the Northern California bracket of the State Championship Play-offs. With a second round win last night, the Lady Cubs move into the round of eight against number four seed Merced on Saturday.

State T's are sold at the State Finals and at Regional sites for \$12. We have 15 players and 5 coach/staff members on our team. The total cost of the shirts would come to \$240.

Since the ASB does support final season awards and banquets for all sports, this request is for an additional amount to help get the team these State T's. We are asking for a 2/3 share of the total cost by the ASB or \$180. The team would pay the remaining 1/3.

The Self-Esteem Living Foundation's
Self-Esteem Through Sports, Entertainment, and Recreation Program

PURPOSE

To raise funds and awareness so that a community youth center can be built and administered in and for the southwest Santa Rosa area. The purpose of this program is to make available, a positive channel totally dedicated to reaching out and responding to the incredible talents, needs and potential of the youth of the Sonoma County Community. Surrounded by counselors and advisors who are anxious to provide them with many opportunities for self discovery, this innovative program gives them a chance to explore their talents and life direction around people who are focused on the individual's personal success and achievements. It is possible to enhance the Self-Esteem and personal and social responsibility of our youth today in a positive and productive manner, through the use of organized sports, entertainment, and recreational activities.

BACKGROUND

Founded in 1986, the Self-Esteem Living Foundation was Sonoma County's Ad Hoc Self Esteem task force, founded and chaired by Terry Hilton, then by supervisor Helen Rudee when the organization became the official county task force. Supervisor Rudee's understanding of the subject, and her organizational skills, made it possible for the subject of self esteem, to be introduced into the entire County government.

S.E.L.F. began its involvement in the Southwest Santa Rosa area with its 1990 Community Awards Banquet, that was used, with the help of The Board of Supervisors and Sheriff Mark Ihde, as a fund raiser for the Southwest area's Alano Club. During these fund-raising activities, Terry Hilton (once again Chairman of S.E.L.F.) was struck by the immense lack of services in the area.

During the 1991 Community Awards Banquet, Terry spoke out for the need for a Community Youth Center in the Roseland area, and it was decided that getting a center built would become one of the S.E.L.F.'s goals.

In 1992 S.E.L.F. joined together with other organizations and individuals to put together plans for a festival and 4th annual S.E.L.F. Community Awards Banquet to take place in the Roseland area in march of 1993. The Southwest Festival was a success, and the 1993 Community Awards Banquet was not only responsible for approx. 90% of the funds raised for the entire festival, but by bringing such notable figures as Cesar Chavez into the event, managed to dramatically heighten peoples awareness of the challenges being faced by residents of the area.

After the festival it became apparent that what was most desperately needed was a organization separate from S.E.L.F. that could concentrate solely on the problems of the Southwest area. This organization is the Concerned Citizens for South West Area Youth.

In addition to trying to raise money and awareness for a Community/Youth Center, C.C.S.W.A.Y. has worked with area organizations such as: The Roseland Lions Club, The Brown Berets, Clinica Roseland, United Farm Workers of America, Westside Little League, and area Soccer Groups.

In 1995, after much work by both S.E.L.F. and CCSWAY, arrangements were begun for the establishment of a temporary Youth Facility. At that point S.E.L.F. began formulating a program for the Facility.

To create the Self-Esteem Living Foundation's Self-Esteem Through Sports, Entertainment, and Recreation Program, we looked at some of the best youth at risk programs in the country. We took the best elements from these programs, and integrated them into a program that is tailored to the needs of Sonoma County in general, and the Southwest Santa Rosa area specifically.

Some of the programs we examined were: Fmr. world champion boxer Archie Moore's "Anybody Can Program"; NFL Hall of Fame'r Jim Brown's "Amer I Can Program"; Doc Broadus' Job Corps youth program.; Fmr. Champion and Mayor of Hayward, Matt Jiminez and Dick (Maker of Champions) Sadler, and their work with youth world-wide.

In addition we are consulting with NFL Hall of Fame'r, Fmr. Presidential Physical Fitness Consultant, and local restaurateur Bob St. Clair; Richard Lopez and his Southwest Santa Rosa "Double Punches" amateur youth boxing program for kids at risk; and other local youth sports programs such as: "Westside Little League", "Fitness Fanatics", soccer groups, roller hockey, volleyball, etc. Also we are working with administrators and students of area schools in order to keep in touch with the needs and desires of the community.

Some of the before mentioned programs have produced State, National, & World Champions.

FORWARD

Every year Santa Rosa is becoming bigger, and one of the fastest growing places in the greater Santa Rosa area is the Southwestern area. Recent population projections indicate that Santa Rosa will be a city of 200,000 residents by the year 2010. Greater wealth and prosperity, as well as new problems and responsibilities, will accompany this tremendous growth.

We are already inheriting the big city problems of increased crime, drug use, and gang activity. Youth involvement in crime, especially gang-related activity, is rising at an alarming rate, and sadly, there is nowhere in the area for young people to "hang out", other than the streets.

At a time when violence seems to be on the increase, it's revealing to us the tragic wastefulness of our nation's talented young people dying in our streets from gangs and gunfire, suffering from lack of guidance, leadership and the ability to dream beyond their difficult circumstances.

The newspapers are peppered daily with accounts of brutal slayings, robberies, drug addiction and crime, which in general is basically terrorizing and seriously undermining the future of this country.

The Self-Esteem Living Foundation's Self-Esteem Through Sports, Entertainment, and Recreation Program, will be a great asset to our young people and will successfully prepare them for a life of success and fulfillment in our society. They have a chance to emerge into the world with some working knowledge and experience about themselves and their ability to make more positive choices, as well as actively participating in the direction of their goals. By learning these skills when they're young, they will be able to develop and evolve into adulthood, as more responsible and marketable individuals.

The following attributes are taken from the viewpoint of the youth, teaching them to successfully deal with their own habits, knowledge and attitudes. With the high costs of crime and incarceration, these learned responsibilities are very appealing to city administrators and tax payers who are tired of footing the bill for continuous reoccurring problems allowed to exist for lack of a workable plan.

By emphasizing educational values, our young people will be provided with opportunities to: experience participation in group relationships; meeting others who are different from themselves and who have come from all over the world; and being with a group dedicated to accomplishing new goals and possibilities in a "positively charged" environment. This atmosphere will help everyone involved to become more accepting of others; to appreciate the uniqueness of each individual; assume more personal responsibility for their emotions and actions; develop and maintain a healthy level of self-esteem and self-confidence; learn how to successfully get along with others as well as working within a team; teach the art of networking; developing their personal appearance; social graces; good communication skills and learning how to apply them in social contacts.

Here are a few more of our goals:

HEALTH PROGRAMS: Closely tied to good mental hygiene, what could be more healthful than to participate in an enjoyable recreational activity? Learning to participate in many types of activity, helps to motivate a lifetime of fitness and natural preventive medicine for the body, and promotes social skills-communicative activity.

GROUP SPIRIT: Helps to develop feelings of unity, humanity and belonging to a cause greater than one's self, and is an important aspect of life. Learning to work together can lead to an understanding of the value of one's self as an integral part of a group, and of the strength and empowerment of a united group of people committed to a common cause, and working together to reach a common goal.

It is the lack of this sort of feeling of belonging that is part of what leads so many young people to join gangs. They seek some sort of group identity, and if they can not find it elsewhere, joining a gang often seems like the only choice open to them. By providing alternatives, such as this program, we can help reduce youth involvement in gangs, and their related destructive activities.

IMMEDIATE GOAL: To open a temporary community youth center in order to establish a base of operations from which to raise the funds and awareness necessary to establish

the permanent facilities, and also provide some of the much needed and currently nonexistent services for the youth of the area. To expose the youth of the community to a wide variety of activities, possibly a carry-over into some vocational values and options.

LONG RANGE GOAL: To establish and administer a permanent community youth center in and for the southwest Santa Rosa area. This youth center will be a safe haven for the young people of the area, giving them access to activities and services that will help to enhance their self-esteem, encourage social responsibility, and increase their chances of becoming responsible and productive members of our community.

The activities made available will help develop special interests and new skills that can positively occupy time in a wholesome creative manner, especially during the difficult times of adolescence. Creating with one's mind can provide endless opportunities for discovery and exploring the Imagination. A rewarding experience that displays an important part of our personal growth, helps us to solve problems, cope with stress and reveals a definite appreciation of our human qualities.

In addition to provided youth services, the center will be made available for use by local community groups and organizations, and will help create a positive identity for the area and increase the sense of community among its residents.

WHO ARE WE NOW? A group of concerned citizens who truly believe in permanently promoting the endless talents of our youth through active participation, interesting education, personal development, compassion and understanding.

Our commitment is to teach, by our own example, the importance and reward of investing time, interest and imagination into the future of our world, helping our children to become aware of their magnificence today and the joy of being there to share it with them. It is our vision to attract people who are interested in creating a dedicated team of talented minds, heading in the same direction, and focused on providing workable solutions and exciting opportunities for our children. Believing in them today, will create a new generation of concerned citizens who will restore the gift of humanity to the children of tomorrow.

The Self-Esteem Living Foundation's Self-Esteem Through Sports, Entertainment, and Recreation Program is by design a unit which organized its activities into a team approach, integrating the physical education and recreational programs into the counseling, education and vocational areas, in order to provide a meaningful experience and wide range of exposure for the participant. This much needed experience, better prepares our young people to live in a normal society and enable them to become a fully developed human being,

In order to meet the needs of filling leisure time hours with significant and fruitful activities, the program has been made a wide and flexible variety of many specialized areas. Within the setting of a climate of exploration, a participant may find one or many self-identifiable skills, interests or hobbies that could well be the springboard to their ultimate success, just by participating in the program.

GROUP INVOLVEMENT

Great emphasis will be placed on intra-mural competition in the major sports, and drawing on the leadership of each participant, the staff will be responsible for finding teams to participate in the various leagues within the city.

LEADERSHIP/VOCATIONAL TRAINING

The staff will form a unit leadership group whose members will work as assistants to implement the program. This group will be made up of one participant student from each unit (selected by his peer group) and its members will be trained as recreation assistants, referees, Judges, etc., as opportunity, skills and need indicates.

AWARDS

The staff will work out a system of awards for group and individual performance. The emphasis of the reward program will be placed on participation and improvement rather than on skill. The type of reward and the criteria for its recipient will be worked out by the participant group.

COMMUNICATION

The physical education program, through its' program of intense activity, provides an outlet for tension, anxiety, and aggressive behavior. This program may produce stressful situations for participants. It is essential that the staff be sensitive to those situations and communicate with the other staff in addition to working out problems with groups or individuals involved.

REFERRAL

The possibility of high-level performance by some participants may be a factor in opening doors for them to colleges and universities. The staff will assist these individuals and establish contact with appropriate colleges and universities to keep fulfilling their pursuits. Career clinics will be established for the participants to inform and counsel them regarding their career goals.

HOBBY AND CRAFTS PROGRAM

The hobby and crafts program will be of a flexible nature, organized to meet a wide variety of interest, but slanted towards the development of crafts and skills that may have vocational and business significance.

ENTERTAINMENT PROGRAM

We will develop on-going drama, art and music groups, in specialized areas, for vocational development and as part of the entertainment program. We are currently working with music legend Johnny Otis, for his local input into music and art; and former "child stars" Jon Provost. (From "Lassie" TV Show), and Bill Gray (From "Father Knows Best" TV Show) for their input on drama.

LEADERSHIP TRAINING

The staff will be assisted by a leadership group, comprised of interested participants who will assist in planning and implementing various programs.

TELEVISION, RADIO AND NEWS MEDIA

The staff will seek to develop shows for local cable/television and will provide training for students in the vocation. There will be development of a radio center, where participants will be trained as disc jockeys and sports communicators.

COMPUTERS

Computers will be made available for use, and training will be provided to help those involved take advantage of this powerful tool.

COOKING/CATERING

Facilities and training will be made available to learn cooking skills, and advance study in the Hospitality and Food Services industry.

YOUTH HELPING YOUTH

We plan to work with both SRJC and SSU, and their Phys. Ed. and Counseling depts., for "interns" to work with the youth of the Community Center in a program called "Youth Helping Youth".

CURRENT FUNDING GOALS

In addition to our planned community and business fund raising activities, we are also seeking help from the city of Santa Rosa, and Sonoma County. We hope that the city and county will work together in partnership to help us help the youth of the Southwest area, by providing us with the necessary funds to pay the rent and utility bills for the temporary facilities on Sebastopol Rd.

Ms. Teresa Rodriguez, President
Associated Students
Santa Rosa Junior College

Dear Ms. Rodriguez,

As you may be aware, the Associated Students have, for a number of years, supported the youth services activities of the Santa Rosa Suburban Kiwanis through a unique partnership. The major fund raising effort of this service group is an annual corned beef and cabbage event, held in mid March. The Associated Students have supported this event, and provided a valuable service to low income students of the Junior College, by purchasing a block of tickets for the meal and donating them to these students. The student recipients have been selected by the Child Development Department from its enrollment of students who are single parents with children participating in the laboratory day care centers.

In the past, the Associated Students have purchased a block of 25 tickets. Although we realize that funding is always a concern for your organization, we would hope that the A.S. could participate again this year. It is always a pleasure to serve meals to these families and to credit the generosity of the Associated Students for providing their opportunity to attend.

The event will be held this year on Thursday, March 14th, at the Odd Fellows Hall on Pacific Avenue. As always, it is an all-you-can-eat event, and both lunch and dinner will be served. Ticket prices are \$9 for adults, with \$5 children's tickets available at the door.

We thank you for considering support of this program and look forward to hearing from you soon. If the A.S. should wish to purchase tickets please feel free to call me at 527-4231.

Sincerely,

Jay Carpenter, Santa Rosa Suburban Kiwanis

HEADWATERS DEATH ROAD REVIVED

Board of Forestry Hearing March 5th

Maxxam's maniacal plan to punch a logging road right into the heart of Headwaters Forest has been revived, and will be considered for approval by the state Board of Forestry in Sacramento next Tuesday, March 5th.

This timber harvest plan, known as THP 099, or the Death Road THP, calls for an 8-acre road to be cut right through the 2,000-year old redwoods of Headwaters Grove (see photo, back of page, for exact location), bisecting this last remaining shred of un-entered ancient redwood forest. It is such a biologically destructive plan that even the California Department of Forestry, which approves nearly every timber harvest plan it sees, turned this one down. But Maxxam has appealed the ruling, and now it is up to the rabidly pro-timber Board of Forestry to decide its fate.

Pack The Hearing!

The Board of Forestry will hold an all-day hearing on the Death Road THP on March 5th. Our presence will help decide the fate of this irreplaceable wilderness. We must pack the hearing and once again wield the political power of the 2,000 people who showed up in September to defend Headwaters the last time it was threatened.

Our goal is not only to convince the Board of Forestry to do the right thing, enforce the law, and deny Maxxam's appeal. We also want to convince Maxxam president Charles Hurwitz to cooperate with state and federal plans to preserve Headwaters, by convincing him that he will never get away with cutting it.

Heartbeat of Headwaters

Besides packing the Board of Forestry hearing, the Headwaters Coalition (which includes Earth First!, EPIC, MEC, BACH, and others) will hold a rally outside the hearing during the lunch break, approximately 12 noon - 1PM. In addition to speakers and music, we are asking people to bring drums. Since they plan to cut a road into the heart of Headwaters, we want to bring the heartbeat of Headwaters to Sacramento, and remind the Board of Forestry of the life they would destroy. We hope the drumming goes on all day.

The Board of Forestry hearing will begin at 9:30AM, and continue all day, as long as there is testimony. The public, as well as the corporation, is invited to speak. The hearing will be in the auditorium of the Resources Building, 1416 Ninth Street, Sacramento. For carpool info call 707-468-1660 (Mendocino Co.), 707-923-2931 (Humboldt Co.), or 510-835-6306 (Bay Area).

Earth  First!

Desperate Plea For Funds

After the wildly successful September 15th Headwaters rally, instead of putting out fundraising mailers, Earth First! was occupied with two solid months of direct action in the forest (including lock-downs, tripods, tree-sits, and 70 arrests), to block a clearcut that went right up to the northern boundary of Headwaters grove. Currently, in addition to defending Headwaters, Earth First! is supporting ongoing community actions in Albion to protest L-P's helicopter logging of some of the last big trees in Mendocino County.

In other words, we've been too busy doing the actions to put out the mailers that keep our treasury solvent. So we'll make a deal. If you support us with your contributions now, we promise to put out a newsletter this Spring to let you know what we've been up to. Checks should be made out to Earth First!, and mailed in the enclosed envelope. Thank you, and on to Sacramento!

Re: Request for Loan

Dear Members of Executive Cabinet,

On behalf of Alpha Gamma Sigma and its members, I would like to request a loan in the amount of \$4411.80 for a fundraising project. Please refer to the budget chart enclosed. The purpose of this request is for the purchase of sweatshirts, t-shirts and boxer - shirts which will be sold at our annual state convention on April 12-13, 1996.

Alpha Gamma Sigma Scholastic Honor Society Inc., is a state honor society organization which was established in California in 1926. Since 1926, many chapters have been established across the state within the 107 Cal. Community Colleges. The S.R.J.C. chapter was established in 1926 and we have been active on campus and within the community and the state for 70 years.

Each spring semester the Alpha Gamma Sigma state executive board in coordination with faculty and staff members of the California Community Colleges organizes a state conference. Last year, 60 chapters from the 107 C.C.'s with over 650 students attended the conference which was held in Asilomar, Monterey. This year the conference will again be held in Asilomar. I have received confirmation from Jo Ann Lawler, conference organizer that an estimated 650 will again attend this year.

Each year, different colleges take the initiative and produce items with the A.G.S. slogan and successfully sell these items at the annual conference. For the past three years those colleges which were involved in fundraising projects have successfully sold out of clothing items produced. For example, both in spring of '93' and '94' one college in particular was able to sell 200 sweat-shirts at \$30.00 each. Last year, another college produced boxer shorts, I believe at 200 items, which also sold out. We believe our project will also be a successful fundraiser.

Furthermore, if SGA financially supports our fundraising efforts we will honor the following: SGA will be reimburse for the loan in full on April 17, 1996 regardless of the success from the fundraiser. The Alpha Gamma Executive Board will take full responsibility for repaying the funds barrowed from SGA.

Thank you for your time and consideration. I look for to hearing from you soon. For further questions you may contact me at my home (415-382-0610). Or you may contact our advisor, Jim Elrod, Santa Rosa Junior College Counselor.

Subject: Restructuring Student Pay

Background and Assumptions

1. Currently a petition is being circulated by the Student Worker Club in support of a student wage increase. Over a thousand signatures have been collected from students, faculty, and staff at Santa Rosa Junior College.
2. We estimate the current expenditures for objects 2360 and 2361, which student salaries come from, are \$2,080,000 based on a student work force of 500 at a pay rate of \$5.20/hr.
3. The last student wage increase, which occurred in fall 91', raised the wage of class 1 students with 200+ hrs by 20 cents and class 2 students with 200+ hrs by 40 cents.
4. The current starting student wage of \$4.30/hr discourages many skilled, talented, and qualified students from seeking employment at SRJC.

This section will be further filled with precise employment and budget figures

Request

1. We propose to implement a 3 class, 1 column student employment structure and to eliminate the current 2 class, 2 column student employment structure.

2. We propose the following pay scale:

class 1: \$5/hr, class 2: \$6.50/hr, class 3: \$8/hr

3. We propose that each department, if possible, place a third of their student employees into each class.

4. Qualifications for class placement will be determined by each department

This section will also include possible budget sources to cover the pay increase.

Impact

1. Total cost of student employment under our proposal is estimated at \$2,600,000 , an increase of \$520,000.

2. An increase in student pay will increase competition for student jobs resulting in more qualified students being hired.

3. The three class structure gives departments more flexibility and pull when seeking students with specialized skills.

Re: Request for Loan

Dear Members of Executive Cabinet,

On behalf of Alpha Gamma Sigma and its members, I would like to request a loan in the amount of \$4411.80 for a fundraising project. Please refer to the budget chart enclosed. The purpose of this request is for the purchase of sweatshirts, t-shirts and boxer - shirts which will be sold at our annual state convention on April 12-13, 1996.

Alpha Gamma Sigma Scholastic Honor Society Inc., is a state honor society organization which was established in California in 1926. Since 1926, many chapters have been established across the state within the 107 Cal. Community Colleges. The S.R.J.C. chapter was established in 1926 and we have been active on campus and within the community and the state for 70 years.

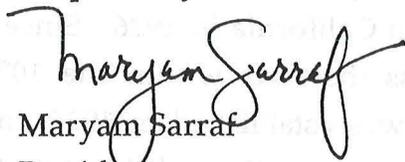

Each spring semester the Alpha Gamma Sigma state executive board in coordination with faculty and staff members of the California Community Colleges organizes a state conference. Last year, 60 chapters from the 107 C.C.'s with over 650 students attended the conference which was held in Asilomar, Monterey. This year the conference will again be held in Asilomar. I have received confirmation from Jo Ann Lawler, conference organizer that an estimated 650 will again attend this year.

Each year, different colleges take the initiative and produce items with the A.G.S. slogan and successfully sell these items at the annual conference. For the past three years those colleges which were involved in fundraising projects have successfully sold out of clothing items produced. For example, both in spring of '93' and '94' one college in particular was able to sell 200 sweat-shirts at \$30.00 each. Last year, another college produced boxer shorts, I believe at 200 items, which also sold out. We believe our project will also be a successful fundraiser.

Furthermore, if SGA financially supports our fundraising efforts we will honor the following: SGA will be reimburse for the loan in full on April 17, 1996 regardless of the success from the fundraiser. The Alpha Gamma Executive Board will take full responsibility for repaying the funds barrowed from SGA.

Thank you for your time and consideration. I look for to hearing from you soon. For further questions you may contact me at my home (415-382-0610). Or you may contact our advisor, Jim Elrod, Santa Rosa Junior College Counselor.

Executive Cabinet Members,

I would like to propose a change to the Election Code today.

Move to recommend to SGA on the recommendation from Executive Cabinet that we amend the Associated Students Election Code Section 7, Letter D to read, "Candidates for President shall have completed twenty (20) units or more at Santa Rosa Junior College prior to the end of the Spring Semester in which the candidate was elected."

I recommend that we change this code for two main reasons:

*There are many qualified, valuable students here at SRJC that are discriminated against because they do not fit the current qualifications for President as stated in the current election code. It is my belief that we can get more student involvement in the election process for president if we change the code. We are not lowering our standards instead we are allowing the voters to have more choices rather than have narrow guidelines and less choices.

*Most community colleges in California do not share our strict guidelines for President. I have brought two colleges here today as examples, one from Northern and Southern California to show that it would benefit us to share a more analogous approach to letting a greater number of students have a chance to run for this position.

- H. The ballots shall be tallied by the Activities Advisor or his/her designee and the Elections Representative or his/her designee.
- I. The Elections Representative and one other Elections Committee member shall send to the Superintendent/President of the College the names of the elected candidates and their respective offices along with one blank ballot with the votes cast for each candidate within twenty-four (24) hours after the election.

SECTION 7--QUALIFICATIONS FOR CANDIDATES

- A. All elected members of the Student Government Assembly must be able to attend Student Government Assembly meetings as scheduled. Members must also be enrolled in Political Science 51 or Community Involvement 51.
- B. All candidates must have a minimum of a 2.00 cumulative grade point average at the end of the semester in which elected in order to take office the following year, and must maintain a 2.00 cumulative grade point average to remain in office.
- C. Candidates for all offices except Senators-At-Large, must have completed twelve (12) units or more at Santa Rosa Junior College prior to taking office.
- D. Candidates for President shall have completed at least two semesters of academic work within the last two (2) academic years and twenty (20) units or more at Santa Rosa Junior College prior to the end of the Spring semester in which the candidate was elected.

Here is the revised draft of a policy regulating visitors and children on campus. A new sentence ending has been added to paragraph 2 as per suggestions from bra unham. Please route to constituents and return comments to CC at our March 21 meeting. DS

Children and Visitors - DRAFT #2-
D.Smith, R. Rose, S.Amalia & College Council
3/7/96

Pol. [Chp.2, 3, or 7?]
Children and Visitors in the Classroom and Work Areas

The occasional adult visitor to the campus may enter a classroom context only with the permission of the instructor. Visitor participation in activity classes, laboratory sessions or studio work is not allowed. Formal auditing of a class is described in _____ [New policy pending. To be added.] Visitors to all district facilities and events are subject to all relevant district policies and education codes.

Minors that accompany staff or students to the classroom may not enter the classroom without the express permission of the instructor, acquired in advance of the class session. Under no circumstances are minors to be admitted to activity or lab areas where caustic substances or equipment are stored or in use unless enrolled or participating in a supervised class or program.

Should minors or dependents accompany a parent or guardian to any other work area on campus for a brief visit, they must remain under the continuous supervision of their parent or guardian and their presence should in no way obstruct or diffuse work or duties in the area.

SRJC wishes to foster a positive relationship with minors and other visitors to the campus, especially on those occasions when special events and programs are planned for them. However, it must be understood that visitors to classrooms and other work areas must not detract from the educational environment of the classroom, the efficiency of the work environment, and the safety of all.

There is divided opinion as to whether the last paragraph should open or close this policy statement. It is an issue of tone and presentation rather than content. Comments welcome.]

Santa Rosa Junior College ASSOCIATED STUDENTS

To: Associated Students Executive Cabinet
From:  Bob Flores, Director of Student Activities
Subject: Administrative Assistant Position
Date: March 18, 1996

As we discussed a few weeks ago, I am recommending that the Administrative Assistant position be augmented to a full-time status. I believe this is necessary due to increased volume of the workload as well as the increased sophistication of the area of accounting and finances. The increase of hours will also allow for the Administrative Assistant to become more involved with specific A.S. plans and programs involving A.S. member services, marketing and A.S. recruitment.

The idea of increasing the hours of the Administrative Assistant from 25 to 40 hours per week has been discussed several times over the past few months and it seems like an idea whose time has come. I have attached a copy of the Administrative Assistant job description for your benefit. It is my estimate that the total dollar cost for this augmentation will be approximately \$15,000-16,000 per year. Please remember that the Associated Students pay the entire costs of salary and benefits for this position. The previously mentioned estimate includes all of the applicable costs.

I recommend that you approve this proposal and forward it on to SGA for action.

As we discussed a few weeks ago, I am recommending that the Administrative Assistant position be augmented to a full-time status. I believe this is necessary due to increased volume of the workload as well as the increased sophistication of the area of accounting and finances. The increase of hours will also allow for the Administrative Assistant to become more involved with specific A.S. plans and programs involving A.S. member services, marketing and A.S. recruitment.

The idea of increasing the hours of the Administrative Assistant from 25 to 40 hours per week has been discussed several times over the past few months and it seems like an idea whose time has come. I have attached a copy of the Administrative Assistant job description for your benefit. It is my estimate that the total dollar cost for this augmentation will be approximately \$15,000-16,000 per year. Please remember that the Associated Students pay the entire costs of salary and benefits for this position. The previously mentioned estimate includes all of the applicable costs.

I recommend that you approve this proposal and forward it on to SGA for action.

To: Executive Cabinet, Santa Rosa Junior College
From: Alpha Gamma Sigma Honor Society, Executive Board
Re: Conference Code Funding Request

Dear Executive Cabinet,

On behalf of Alpha Gamma Sigma Honor Society - Theta Chapter and its members, we the executive board would like to request Conference Code Funding for our annual state convention, being held in Asilomar, Monterey on April 12 - 14, 1996.

We are requesting funding for six members and our advisor, for a total of 7 attendees, in the amount of \$1163.00. Which includes:

- a. Conference Fee: $\$150.00/2 = \$75.00 * 7 = \$525.00$ (1/2 cost for total conf. fee for 7 people = \$525.00).
- b. Transportation costs: Miles round trip = $362 * .31 = \$112.22/2 = \$56.11 * 7 = \$392.77$ (1/2 cost for total tranp. costs for 7 people = \$392.77).
- c. Maximum of \$10 per person per night for lodging: $7 @ \$10 = \70.00 (lodging for two nights for 7 people @ \$10.00 per night = \$140.00).
- d. Maximum of \$5 per person per day for food expenses: $7 @ \$5 = \35.00 (food expenses for three days 7 people @ \$5 per day = \$105.00).

Moreover, all A.G.S. members requesting conference code funding are members of Associated Student Body.

The purposes for this conference are: One, to award scholarships to academically outstanding students who display consistent academic excellence and achievement; to award scholarships to students who have provided their voluntary services and talents and have made leadership contributions to their community college campuses, communities and A.G.S; Secondly, to educate and train students in leadership skills, student activism and academic issues.

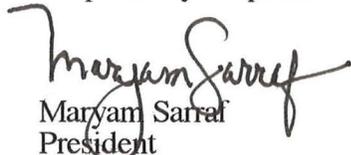

Alpha Gamma Scholastic Honor Society Inc., is a statewide organization established in California in 1926 with its membership consisting of 107 community colleges across the state. The S.R.J.C. Theta Chapter was established in 1926 and we have been active on campus and within the community and the state for 70 years. Moreover, the purpose of A.G.S. is "to promote, maintain, and recognize scholarship; to develop programs offering cultural, social or enrichment experiences; and to promote service to the college and to the community" (per A.G.S. constitution).

Furthermore, Santa Rosa Junior College will be benefitted in many ways. First, by sending a delegation of A.G.S. members and 2 scholarship candidates, S.R.J.C. will receive recognition at the state level among more than 60 other community colleges attending. Secondly, A.G.S. members attending the conference who applied for scholarships, may be awarded with highly prestigious scholarships and thus, S.R.J.C. will receive recognition for its outstanding students, and the recipient of the award will be able to pursue academic and leadership interests either at S.R.J.C., or at another four year institution. Third, all members will get leadership training, which they can come back and use on the S.R.J.C. campus or at another institution of higher education. Lastly, those members who attend will come back and share their experiences with other members. We plan to conduct some sort of an official seminar regarding our experiences at the conference.

In addition, Alpha Gamma Sigma will submit a written report to SGA regarding the benefits derived by members who attended the conference, two weeks after the conference.

Thank you for your time and consideration.

B) *Purpose of the conference.* The purpose of the conference is to develop the leadership and business skills of Phi Theta Kappa chapter officers and advisors. It will be an international forum with opportunity for sharing ideas and skills with a diverse group regarding such issues as dealing with the public and school administration, motivating members, scholarships, and implementing service projects.

C) *Which areas SRJC will benefit.* Santa Rosa Junior College will benefit in the following ways:

- As Beta Gamma Delta is SRJC's newly-chartered chapter of Phi Theta Kappa, this is the first year that the College will be represented in a Phi Theta Kappa International Forum.
- Our presence will enhance Santa Rosa Junior College's reputation by making our school known to a broader population, including influential members of business and government.
- The conference offers 15 intensive study tracks that will offer our officers an excellent opportunity to develop our leadership skills in order to make our chapter more outstanding in the community.
- The tracks will teach us how to motivate members to become involved and how to implement service projects, so that we can become more active serving our community as a club.

- Sharing experiences with representatives from established chapters from around the world will help us to develop new perspectives that will help Phi Theta Kappa cater to the needs of as diverse a student population as possible.

Along with our meetings with our congressional representatives, this trip will be very productive, and well-worth the cost. Thank you for your time and consideration.

EL RITMO DEL MOVIMIENTO

Monthly newsletter published by the Latino Student Congress of Sonoma County

"Keep this movement going. Keep this movement rolling in spite of the difficulties. And we are going to have a few more difficulties. Keep climbing, keep moving. If you can't fly, run. If you can't run, walk. If you can't walk, crawl, but by all means keep moving." -Martin Luther King, Jr.

Youth on The Move

by Lidia Lopez

The California Chicano/Latino Intersegmental Convocation took place at the San Francisco Hyatt Regency Hotel on November 13-14, 1995. The purpose of the conference was to gather educational and community leaders who were prepared to address key issues head-on. Issues such as Affirmative Action and the status of Prop. 187 were hot topics of discussion.

Those who attended the conference were faculty, administrators, staff, students and community/business "leaders" who were concerned with various issues affecting our communities and wanted to make a difference.

Among these 'leaders' were myself and four other Sonoma State students. Our gathering and

Conference photo: from left to right: Juan Lemus, Maria Rodriguez, Willie Brown, Dolores Huerta, Fernando Bribiezca

sharing of ideas with others throughout the conference united us and helped us realize that we were not alone in our common struggle for "justicia". It was an incredible feeling to be surrounded by hundreds of other Latinos who were successful in their careers. They represented 'La Raza' with pride and were reaching out to us by letting us know that even as students, we have the power to create "change".

LOS NUEVOS CIUDADANOS

por Cheryl Wolfe

Quien seria el presidente si el presidente y el vice-presidente se murieran? Esta es una de las cien preguntas que pueden hacer en el examen para la ciudadanía y que estudiamos en las clases donde nosotros, El Congreso Estudiantil, ayudamos a los hispano-hablantes no documentados, a prepararse para ser ciudadanos. Hemos dado cinco clases hasta ahora en Sonoma, Santa Rosa, Healdsburg, Rohnert Park, y Windsor. Es muy inspirador ver que tantas personas tienen interes en ser ciudadanos. Espero que estas personas voten contra Pete Wilson en los siguientes años.

Hay dos cosas que me gustan especialmente en nuestras clases. Una es ver la oportunidad que esta gente tiene para conocer a otras personas de su misma comunidad, que tienen los mismos sueños en hacerse ciudadanos. Otra cosa fascinante es que la gente tiene tanta motivación. Yo puedo ver esto por el hecho de que ellos han aprendido algunas respuestas, en inglés, a las cien preguntas en solamente cuatro clases.

En la última clase que tuvimos en Windsor, hicimos un pequeño juego donde asignamos una pregunta de las cien a una persona de una colonia y la persona tenía que contestar, "I represent New York and the answer is the speaker of the house, Newt Gingrich." De esta forma la gente practicaba habilidad para hablar inglés delante de un grupo de personas. Me gusta ver cuando las personas tienen

WHY DO THINGS HAPPEN TO US?

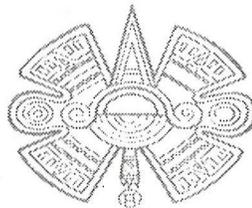

By Dr. Francisco H. Vázquez

Some people believe that things happen to them. "It's fate," they say. Others believe that each one of us is responsible for making things happen. What kinds of "things" am I talking about? It could be as personal as deciding whether to keep one's word about doing your work or deciding to just forget about it. Or it could be the kind of thing that affects all of us, like the upcoming presidential election ("it's all a joke," some say)...or the plan in Sonoma, California to separate, in different schools, students who do not speak English.

When we feel powerless it is easy to think that whatever happens, it was bound to happen "anyways." But in a democratic society, which is supposed to be run by the people, each one of us must believe that WE are the ones that make things happen. Too many times we blame the politicians, or "the gabacho" for calling all the shots. And in fact they have one kind of power to do it. They have the power of money. We may not have much money but we do have the strenght of numbers. In other words, there are two kinds of power: organized money and organized people.

That's why he purpose of the Latino Student Congress is to organize students at all levels, from primary to university. This year we have joined forces with the Faith- Based Community Organizing Project which is into broad-based organizing. They are part of the same group who trained César Chávez (not the boxer, the union organizer). Out of this partnership students have taught citizenship classes and are planning a musical performance ("The Birth of our Art") for Friday May 3 and the Fifth Annual Leadership Conference for Saturday, May 4. Next year we plan to help build organizations at each school.

But if we, as a democratic people, are going to have any power, each one of you who is reading this paper needs to make a commitment to get involved and ORGANIZE. Know what the issues are, learn to discuss them and if you commit yourself to do something, follow through and do it on time. If you want to be trained as a leader, then call us.

STUDENT VOICES

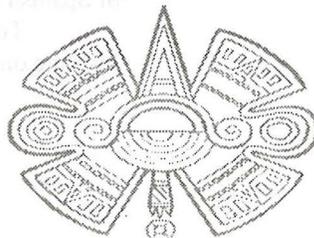

On Being Informed and Keeping an Open Mind/Sobre La Información y Una Mente Abierta (Part 2 of 2/Parte 2 de 2) By Eloisa Colín, 12th grade, Montgomery High School

When I first heard about the Civil Rights Initiative in a Latino Student Congress meeting where a group of college and high school students meet to discuss the issues affecting the Latino community. It was headed by Francisco Vazquez, a teacher in the Hutchins Department at Sonoma State University, and he called it the "son of Proposition 187". Affirmative Action is something not to be looked on as prejudiced because that is as far from the truth than it could possibly be. It was actually made to decrease prejudice based on race or gender and increase integration of minorities in the work force and education systems. Upon learning a little more about it, although I didn't know as much as I would have like to, I was sure that few, if any people supported the Civil Rights Initiative. I guess I shouldn't have been so surprised when all of those who spoke during my school seminar supported it (with the exception of myself and one other person), since this was basically the same reaction I received from my last seminar group when we spoke about Proposition 187. Only myself and a few others were against it and the rest of the group thought is was the only alternative we had left to fight the steady stream of immigration in California.

When I find out more about Affirmative Action, maybe then I will get my chance to speak out with more assurance and knowledge behind my words. Once I educate myself about the issue, like I know many others should do before making their final decisions, I will be able to educate others. Until then I hope that others, as well as myself, learn to listen and become a little more open-minded, and that we all continue speaking our opinions and sharing our knowledge.

La primera vez que yo oí acerca de la Iniciativa Sobre Derechos Civiles fue en una junta del Congreso de Estudiantes Latinos donde un grupo de estudiantes de secundaria y preparatoria se reunieron para dialogar sobre los asuntos que afectan a la comunidad Latina. Era dirigido por Francisco Vazquez, un maestro en el Departamento de Hutchins en la Universidad Estatal de Sonoma, y llamó a esta iniciativa, "el hijo de Proposición 187." La Acción Afirmativa es algo que no debe verse como prejuicio porque eso esta muy lejos de la verdad. En realidad, esta fue creada para disminuir el prejuicio basado en sexo or raza y aumentar la integración de minorias en la fuerza de trabajo y los sistemas educativos. Despues de aprender un poco sobre de esto, aunque aun no se todo lo que quisiera saber, estaba segura que muy poca gente apoyaría a esta Iniciativa. Yo creo que no debí estar tan sorprendida cuando todos los estudiantes que hablaron en el seminario la apoyaron (con la excepción mia y otro estudiante), puesto esta reacción es basicamente la misma que recibí del otro grupo cuando hablamos sobre la Proposición 187. Solo yo y unas cuantas otras personas estuvimos en contra y el resto del grupo pensó que esta es la unica alternativa para pelear en contra de la corriente continua de imigración en California.

Cuando aprenda mas acerca de Acción Afirmativa, quizaz entonces voy a tener la oportunidad de hablar con mas seguridad y conocimiento detras de mis palabras. Cuando me eduque acerca de este asunto, como se que otros deben de educarse para saber de que estan hablando, va a ser posible educar a otros. Hasta entonces, espero que otra gente, al igual que yo, aprenda a escuchar y que se haga de un criterio mas abierto, y que todos sigamos expresando nuestras opiniones y compartiendo nuestro conocimiento.

¿Por que siempre nos pasan cosas?

Alguna gente cree que las cosas les pasan a ellas/ellos. "Asi es el destino," dicen. Otros creen que cada uno de nosotros es responsable por hacer que las cosas pasen. Pero, ¿de qué clase de cosas estoy hablando? Puede ser tan personal como decidir si vamos a cumplir con nuestra palabra y hacer nuestro trabajo o dejarlo para otro día. O puede ser el tipo de cosas que nos afectan a todos como las elecciones presidenciales ("es puro pedo," dicen algunos); o que en la ciudad de Sonoma quieran separar a todos los estudiantes que no saben hablar inglés y mandarlos a escuelas especiales.

Cuando nos sentimos sin poder, es facil pensar que las cosas que pasan ya estaban escritas, destinadas a pasar. Pero en una sociedad democrática, que debe de ser gobernada por la gente misma, cada uno de nosotros debe creer que NOSOTROS mismos somos los que hacemos que las cosas pasen, que las cosas cambien. Muchas veces culpamos a los políticos, o al "gabacho" por hacer lo que les da la gana. Si, ellos tienen el poder del dinero. Nosotros no tenemos mucho dinero pero tenemos la fuerza de ser muchos. En otras palabras, hay dos tipos de poder: dinero organizado y gente organizada.

Por eso el propósito del Congreso Estudiantil Latino es el de organizar a estudiantes de todos los niveles, desde primaria hasta universidad. Este año hemos unido nuestros esfuerzos con el Proyecto de Organizaciones d Base que se dedica a organizar gente de todas clases sociales y raciales. Esta organización es parte del grupo que entrenó a César Chávez (no el boxeador sino el líder sindical). De esta asociación los estudiantes han enseñado clases de ciudadanía y estan planeando una narrativa musical ("El Nacimiento del Arte Latino") para el viernes, Mayo 3, y el Quinto Simposio Anual de Liderazgo el sábado, Mayo 4 de este año. El año que viene planeamos patrocinar organizaciones en cada una de las escuelas.

Pero si vamos a tener poder, como una gente que quiere gobernarse a si misma, cada uno de ustedes que lee este artículo tiene que comprometerse a ser miembro de alguna organización y ORGANIZAR doñde no haya nada. Hay que saber cuáles son los hechos, aprender a discutirlos y comprometerse a hacer algo y a hacerlo bien y a tiempo. Si quieres ser entrenada o entrenado como líder, llamanos por teléfono.

DOS CULTURAS, UN CAMINO

por Sari Cabral

Roberto Garcia nacio en el Distrito Richmond en San Francisco. Sus padres eran inmigrantes mexicanos que escogieron criar y educar a su hijo en los Estados Unidos. Resulta que Roberto habla el espanol tan bien como el ingles con toda habilidad y quiere a los dos paises. Toda la vida ha luchado por promover el entendimiento y respeto mutuo en ambos lados de la frontera, y es ejemplo de como puede funcionar con exito una sociedad bilingue como la de California.

Su proyecto predilecto consta de traer la cultura de Mexico a los Estados Unidos tras el arte, la literatura y la musica para que los chicanos, inmigrantes mexicanos, y anglos puedan captar y apreciar el espiritu de Mexico. Durante cuatro tornos como presidente de La Red Hispana del Condado de Napa, una organizacion sin ganancia que se dedica a dar a los hispanos el poder de participar en lo social y politico de E.U. Roberto los invito a varios dignatarios y artistas a Napa para dar discursos informativos y exhibir sus talentos. Gregorio Luke, el agregado cultural del embajado mexicano en Washington D.C. presento una exposicion de diapositivas titulada "La Vida y Las Obras de Frida Kahlo." Jerry Jacobs, el arquitecto mexicano-americano que diseno las tiendas de ropa "Aca Joe," dio un discurso tocando a los requisitos y las recompensas de su profesion.

Actualmente, Roberto es miembro de la Mesa Directiva del Centro Cultural Mexicano en San Francisco, que obra directamente con Mexico y Los Estados Unidos para mejorar la calidad de la vida para los mexicanos en Estados Unidos, y para asegurarles que el gobierno mexicano les apoya a ellos y a sus descendientes en el extranjero. Tras los esfuerzos de Roberto, El Consul General Mexicano ha venido a Napa en varias ocasiones para responder a preocupaciones y asuntos con relacion a la comunidad mexicana. Roberto tambien ha organizado viajes a San Francisco para hispanos y anglos, para que pudieran asistir a eventos y museos que celebran la diversidad de la cultura mexicana.

Su enfoque principal, considerada la herramienta esencial para el exito en la sociedad, es la educacion. Ha trabajado muchos anos para el Programa de la Educacion Migratoria, que ayuda y anima a los hijos de trabajadores agricolas a lograr el exito escolar. Roberto participo directamente en tratar de resolver el conflicto pandillero en el condado de Napa por conseguir un lugar neutral donde los pandilleros y los lideres de negocios locales pudieran hablar de los problemas y buscar soluciones para mejorar la calidad de la vida de todos.

Segun la filosofia de Roberto, los esfuerzos del exito educativo no terminan con los estudiantes. Ha contribuido a involucrar a los padres en la educacion de sus

hijos para animarles a hacer un papel activo en ella. Tambien les da a conocer cuales son las oportunidades, recursos y derechos que tienen en los aspectos sociales, politicos y legales de la sociedad. Como un buen doctor de la practica general, Roberto trata a la familia entera.

Por ser convencido que un individuo bilingue es esencial a una sociedad bicultural. Roberto ensena el espanol a los anglos en la Escuela para los Adultos, para que puedan participar mejor en una sociedad bilingue. Sus clases no se tratan solo de la gramatica y la pronunciacion, sino de la cultura, historia, musica, y comida mexicana. Ademas, ensena el ingles a los trabajadores del campo, tanto como las necesidades practicas de funcionar en los Estados Unidos.

En su tiempo libre, Roberto viaja a diferentes regiones de Mexico cada ano, sumergiendose en la cultura e historia. En el viaje a Merida, Yucatan el diciembre pasado, conocio a Eduardo Rosado, un cantante tenor de opera. Al escucharle cantar, su primer pensamiento fue "Ay!, tengo que llevarlo a Napa porque la gente necesita oir esto!" Y porque nunca se deja escapar una oportunidad de promover el bi-culturalismo tras el arte, Roberto arreglo un evento patrocinado por La RED Hispana del Condado de Napa y el Centro Cultural Mexicano en el cual el Sr. Rosado cantara arias de la Zarzuela. Tomara lugar el 28 de abril a las 3 p.m. en el Colegio del Valle de Napa. La entrada es de \$15 y los fondos se usaran para las becas que dan La Red Hispana a los estudiantes hispanos que quieren continuar su educacion al graduarse de la secundaria.

Para el verano Roberto ha arreglado otro evento, esta vez para celebrar el arte culinario, titulado "Exposicion Gastronomicas de la Comida fina Mexicana." Se llevara a cabo en una vineria en Napa en julio. Dos cocineros del famoso restaurante La Hacienda de los Morales ubicado en la Ciudad de Mexico, vendran para demostrar sus talentos culinario especiales. Para mas informacion tocante a estos dos eventos, favor de llamar a Roberto al 224-6351.

Roberto Garcia trabaja sin cansar para la unificacion de la hendidura entre anglo y mexicano, norteno y sureno, el gringo y la raza, y el espanol y el ingles. Lucha por una sociedad que estime ambas culturas y promueva lo mejor de cada una. Puesto que siempre anda en busqueda de personas para servir como buenos ejemplos a la juventud hispana con quien trabaja, Roberto no necesita mirar mas lajos de su propio espejo.

TWO CULTURES, ONE GOAL

Roberto Garcia was born in San Francisco's Richmond District to Mexican immigrant parents. Raised and educated in the U.S., he is fluent in both English and Spanish and retains a deep love for Mexico as well as for the country of his birth. He has devoted his life to promoting mutual understanding and respect on both sides of the border, and is an example of how California's dual society can function successfully.

His pet project is to bring Mexican culture to the United States through art, literature, and music, so that Chicanos, immigrants, and Anglos together will all gain a deeper appreciation of Mexico. During four terms as president of the Napa County Hispanic Network, a non-profit organization dedicated to the social and political empowerment of Hispanics, he has invited numerous dignitaries and artists to speak and perform. Gregorio Luke, the cultural attaché from the Mexican Embassy in Washington D. C. presented a slide show entitled "The Life and Works of Frida Kahlo." Jerry Jacobs, a Mexican-American architect who designed the "Aca Joe" clothing stores, spoke on the requirements and rewards of his profession.

Roberto currently serves on the board of the Mexican Cultural Center in San Francisco, which works directly with Mexico and the United States to improve the quality of life for Mexicans in the U.S. and to assure them that the Mexican government is supportive of its citizens and their descendants abroad. At his invitation, the Mexican Consul General has come to Napa County on numerous occasions to address concerns specific to the Mexican community. Roberto has also organized excursions for Hispanics and Anglos alike to San Francisco museums and events which celebrate the diversity of Mexican culture.

Roberto's main focus in the empowerment process is on education. He has worked for many years for the Migrant Education Program, in which children of migrant farm workers are aided and encouraged to succeed in school. He worked to help mediate Napa County's gang conflict, procuring a neutral place where rival gang leaders could meet and dialogue with local business leaders who were dedicated to improving the quality of life in the community for all its members. His philosophy of success through education does not stop with the students. He has been instrumental in involving parents in their children's school experience and also in acquainting parents with the opportunities and resources available to them in the social, civic and political aspects of American society. Like a good practitioner of general medicine, Roberto "treats" the entire family.

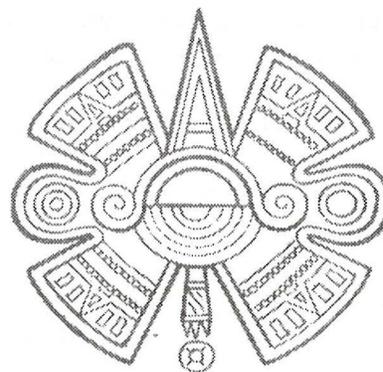

Firmly believing that a bilingual individual is

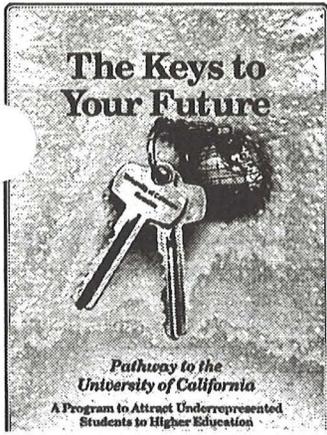

essential to a bicultural society, Roberto teaches non-Spanish speakers through Adult School Spanish classes to better enable them to participate in a dual-language society. His curriculum is not limited to pronunciation and grammar, but includes the study of Mexican culture, history, music and food. On the other hand, he also teaches English to farm workers, as well as the practical necessities of functioning in American society.

In his spare time, Roberto travels to a different part of Mexico each year, immersing himself in the culture and history of each region. It was on just such a trip this past December that he met Eduardo Rosado, an operatic tenor, in Merida, Yucatan. After hearing Sr. Rosado perform, Roberto's first thought was "I must bring him to Napa because the people have to hear this." Never one to miss an opportunity to promote biculturalism through the arts, Roberto has arranged through a joint sponsorship from the Napa County Hispanic Network and the Mexican Cultural Center for the artist to perform arias from the Zarzuela at Napa Valley College on April 28 at 3 p.m. The cost is \$15, with all proceeds going to the Network's scholarship program for Hispanic seniors attending Napa Valley high schools.

With spring devoted to opera, Roberto will turn his attention to the appreciation of fine cuisine for a summer fundraiser proposed for July. Entitled "Fine Mexican Gastronomic Show." The event will feature two Mexican chefs from the famous restaurant La Hacienda de los Morales in Mexico City who will travel to a Napa Valley winery for a demonstration of their special culinary talents. For information regarding both of these events, call Roberto at 224-6351.

Roberto works tirelessly to meld what some see as a cultural chasm of Mexican vs. Anglo; norteno vs. sureño; gringo vs. la raza; English vs. Spanish into a society which appreciates both cultures and promotes the survival of the best within each. Always looking for role models for the Hispanic youth with whom he works, Roberto need look no further than himself.

Estudiar en el extranjero

Por
Winter Crissinger y Alex Wolpe

Lidia López es una estudiante de la Universidad de Sonoma State que esta acabando el segundo semestre de su tercer año de estudios. Su área mayor es Letras modernas, pero hoy en día está ocupada por razones diversas. Es que se halla en la situación urgente de tener que esperar para saber si será admitida al "Programa Internacional de la Universidad de Sonoma State" en Granada, España. Lidia, igual que los otros solicitantes, no sabrá el resultado de su solicitud hasta el mediado de abril. Los estudiantes en el programa internacional pueden escoger entre varios países como por ejemplo el Reino Unido, Alemania, Francia, África y otros. El programa dura un año, y los preparativos de alojamiento varían con cada país. En Granada, Lidia tendrá unos pocos días para encontrar un apartamento que compartiría con otros estudiantes o quizá con una familia. Dice que se está poniendo nerviosa al pensar en la nueva experiencia de estar en un país a donde nunca ha viajado.

Lopez creció en Los Angeles, y ha vivido por dos años en Zapotlanejo, en Jalisco México. Es miembro del "Congreso de Estudiantes Latinos", cuya función actual, entre otras, es ayudarles a los ciudadanos de nuestra comunidad a hacerse ciudadanos norteamericanos decididos. De esa manera Lidia ha participado activamente en la comunidad latina en La Universidad de Sonoma State. Gracias también al programa de "Teacher Diversity", ella ha podido dar clases particulares bilingües a siete alumnos de escuela secundaria.

Otra estudiante que espera participar en el programa internacional se llama Hortencia Diaz. Hortencia tiene 23 años y es salvadoreña. Creció en *la Ciudad de Panama*

Studying Abroad

Winter Crissinger and Alex Wolpe

Lidia Lopez, a second semester junior with a Liberal Studies major at Sonoma State University is busy with many different activities.. Her most pressing circumstance is her awaited acceptance into the International Program at Sonoma State to Granada, Spain. She, along with many other applicants will not know the decision until mid April. The International Program has many other countries students can choose from, like the United Kingdom, Germany, France, Africa and more. The program is for one year, and living arrangements vary from country to country. In Granada, Spain, Lidia will have a few days, with references, to look for an apartment to live with other students or live with a family. She says she is nervous, yet very excited for a new experience of being in a country she has never been to.

Lopez grew up in L.A., and has lived in Zapotlanejo, Jalisco, Mexico for two years. She has been an active member of the Latin community at Sonoma State, by being a member of the Latin Student Congress, which along with other items, is presently helping Latin citizens in the community to become active American citizens. Also, through the Teacher Diversity Program at Sonoma State, Lidia has been given the opportunity to tutor seven high-school students bilingually.

Another student who hopes to participate in the International Program is Hortencia Diaz. Hortencia is 23 and is from El Salvador. She grew up in Panama City but has been living in the U.S. for about 5 years. She is fluent in English and Spanish, but as she would like to become an international business woman, she has started to learn German, which will be her

pero hace unos cinco años que vive en los Estados Unidos. Domina el inglés y el español pero como quiere hacerse mujer de negocios internacionales, se puso a aprender una tercera lengua; el alemán. Es por eso que Hortencia quiere participar en el Programa internacional en Tubingun, Alemania. A ella le gusta el desafío que consta de ponerse en medio de una cultura que a penas conoce, aunque como Lidia, también está preocupada por el nuevo modo de vida que le espera en Alemania. Entre un dormitorio universitario y una familia alemana, prefiere la segunda, porque le parece que al vivir en familia aprendería más de la cultura y lengua alemanas.

Al comienzo de la guerra civil en El Salvador Hortencia y sus familia extendida que consiste de un hermano, una hermana, una sobrina, los abuelos, su madre y su padrastro, vinieron a Encino en Los Angeles donde viven en una casa de tres habitaciones y un baño. De toda su familia, Hortencia es la única que logra estudiar en la universidad. Aunque recibe una beca que cubre la enseñanza y el alojamiento, está preocupada por los gastos del viaje y de la vida diaria que no son incluidos en su beca. (A los estudiantes de intercambio no se les permiten trabajar legalmente.)

Esperamos que Lidia, Hortencia y los otros solicitantes al Programa internacional tengan buena suerte y buen viaje.

third language. That is why Hortencia wants to participate in the International Program in Tubingun, Germany. She likes the challenge which consists in putting herself in the midst of a culture that she barely knows, although like Lidia, she is also worried about the lifestyle that awaits her in Germany. Between a university dorm and a German family, she prefers the latter because she feels she would learn more about the German language and culture by living with a German family.

At the beginning of the civil war in El Salvador, Hortencia and her extended family consisting in her brother, sister, niece, grandparents, mother and step-father came to Encino, Los Angeles where they live in a three room house with one bathroom. Hortencia is the only one in her family to be able to go to college. Although she receives a scholarship which covers her tuition and lodging, she is worried about the costs of the trip and daily expenses which are not included. (Exchange students may not legally work in the foreign country.)

We wish good luck to Lidia, Hortencia and the other applicants to the International Program, and "bon voyage"!

ESTUDIANTE DE SSU AYUDA EN LA COMUNIDAD HISPANA

por Nichole Warwick

Jennifer Pearson, una estudiante de SSU, está enseñando primeros auxilios y "CPR" a la comunidad hispana del condado Sonoma, para la Cruz Roja o "Red Cross". Ella es una de dos empleados quienes hablan el español. Enseña como reaccionar a las situaciones cuando una persona no puede hablar, respirar, y así. También enseña como ayudar a víctimas quemados y sangrando hasta que los paramédicos lleguen.

Hay dos programas que se ofrecen en español: CPR y primeros auxilios. La Cruz Roja ofrece los programas para grupos y individuos en la oficina de Red Cross en Santa Rosa.

Las clases tienen más de 6 y menos de 10 personas.

La Cruz Roja también da clases de CPR y primeros auxilios a empleados de ranchos, plantas químicas, y plantas de desperdicios. También ofrecen educación migrante, un programa para los hijos de trabajadores migratorios.

Pearson empezó a trabajar para la Cruz Roja cuando asistía a la universidad de Chico, en California. Ha estudiado la lengua española por más de nueve años. Su especialización en SSU es de español y ciencia política.

"Pienso que es bueno que haya programas bilingües como ESL, pero pienso que necesitamos muchas personas quienes hablan español para otras profesiones. Quiero enseñar el español," dijo Pearson.

Pendejismo

by José Antonio Burciaga

Most popular Mexican cuss words begin with a “p”. Why words such as pinchi, puto, político and pendejo, carry such a harsh negative sound, I don’t know. I’m not a linguist.

Pinchi, or pinche, is used to describe someone who is mean-spirited. The degree of insult depends on the intensity, the context, and who is delivering it. I don’t know why the word is considered vulgar. In Spain, a pinche is a kitchen helper, and a few restaurants are named El Pinche, which many Mexican and Chicano tourists find hilarious.

Once when I was a kid, my big sister was angry and wanted to pinch me, so I said, “¡No pinching!” She ran to Mom and said, “¡Mamá! ¡Antonio called me a pinchi!”

Well, Mother, proper and educated woman that she was, gave me a tongue-lashing that I never forgot, and I could never convince her or my sister that what I had said was “No pinching!” To this day, my sister will only laugh and say she doesn’t remember anything, but my ears still sting.

A puta is a whore in vulgar Spanish, as opposed to prostituta for prostitute. A puto is a homosexual.

Pendejo is probably the least offensive of these P words. In Guadalajara and some other parts of México, it is a common everyday word. For the non-Spanish speaking, the word is pronounced pen-deh-ho (not pen-day-hoe); feminine, pen-deh-ha; plural pendejas or pendejos. The noun, or committed act of a pendejo(a) is a pendejada. The verb is to pendejear. The term pendejo is commonly used outside of polite conversation and basically describes someone who is stupid or does something stupid. It’s much stronger to call someone a pendejo than the standard Spanish estúpido. But be careful when calling someone a pendejo. Among friends it can be taken lightly, but for others it is better to be angry enough to back it up. Ironically, the Yiddish word for pendejo is a putz which means the same thing.

In high school I had a friend whose name I consistently forgot. I must have asked him for the umpteenth time when he finally yelled, “¡Olivas! ¡Pendejo!” So I called him Olivas Pendejo. At that same high school, we had a principal, Brother Alphonsus, whose favorite proverb was a reminder to students: Naces pendejo, mueres pendejo; — “You were born a pendejo, you will die a pendejo.”

Proverbs on pendejos abound in Mexican culture. Children say what they are doing; old people recall what they did; and pendejos say what they’re going to do. Dogs open their eyes in fifteen days, pendejos never do. Of lovers that live far away from each other it is said, Amor de lejos, amor de pendejos — “Love from afar, love for pendejos.” The word can also be used to relieve pain: No hay pena que dure veinte años ni pendejo que la aguante — “There is no pain that lasts twenty years nor a pendejo that will endure it.”

El Diccionario de la Real Academia de la Lengua Española

(The Dictionary of the Royal Academy of the Spanish Language) defines pendejo as a “pubic hair”. The secondary definition of a pendejo is a coward. Then there are tertiary definitions according to country: In Argentina, a pendejo is a boy who tries to act like an adult. In Colombia, El Salvador and Chile, a pendejo is a cocaine dealer. There are a lot of those in this country. Here and in México a pendejo is more likely to be a fool or an idiot.

Señor Armando Jiménez, author of *Picardía Mexicana*, a collection of Mexican picaresque wit and wisdom, is also México’s foremost pendejólogo (pendejologist). According to Don Armando, the number of pendejos, even as you read this, is innumerable. It has been estimated that if pendejos could fly, the skies would be darkened and we would enter a new ice age. The pendejos would get a severe sunburn. Some pendejos go so far as to believe that if all pendejos were to be corraled, there would be no one left to close the corral gates. That theory has been discounted by the fact that herding pendejos would be like herding cats. Pendejos have a mind of their own.

The great majority of people regardless of class, color or creed, are pendejos, according to Señor Jiménez. His research studies claim that up to 90% of the world population are pendejos. Of the remaining 10%, 5% are mentally unstable, .5% are geniuses, and 4% are unemployed — the exact amount needed for a sound economy. The remaining .5% are lost.

According to Jiménez, there are countless categories and types of pendejos. The following are but a few:

- * The *políticos*, who think they will change the world with money, charisma or speeches.
- * The hopeless pendejos, who blame all their problems on bad luck instead of the fact that they are pendejos.
- * The happy ones, who believe in their superiority over other pendejos who look up to them.
- * The dramatic pendejos, who can be indentified at a distance of one city block, by their stance and by the way they walk, sometimes carrying a book or two.
- * The pseudo-intellectuals, who act as if they are deep in thought on some theory when in reality they are wondering where they parked their cars.
- * The optimistic pendejos, who are naive, happy, and talkative. They look for hidden treasures, mines, underground water. They also buy lottery tickets, bet on everything and believe in television wrestling.
- * The pessimistic or doubting pendejos, who don’t believe anything you tell them. If you don’t believe this, you fall into this category. And if you do believe this, then you might fall into the category of those pendejos who believe everything.
- * Entrepreneurial pendejos, who have grandiose projects, are eloquent, and make great salesmen. If this type convinces you, you are an even bigger pendejo.

This list may be used for self-evaluation, and to classify relatives, friends and lovers. If you did not find yourself in any of these pendejo groups, congratulations! This means you’re either a genius, unemployed or mentally unstable. For those on the list, there is still no known cure, but you are not to blame. ¡Naces, pendejo, mueres pendejo!

- I CALL TO ORDER The meeting was called to order at 3:00 PM.
- II ROLL CALL Absent were Marisa Alvarez, Janet Rozovics.
- III APPROVAL OF AGENDA The agenda was approved as amended.
- IV APPROVAL OF MINUTES The minutes were approved as amended.

V REPORTS

A President (Rodriguez)

- 1. Teresa mentioned that the Board of Trustees meeting was horrible. She added that she had no report to give at the meeting because she's boycotting against giving reports at BOT meetings. Her reasons were vague.
- 2. She said that she would let everyone else say what she wants to say because they always say it anyway.

B Advisors (Flores)

- 1. Bob said that the DC trip went well. Only half of the members of the group had been mugged (he was told it would be 80%), and only one got hit by a vehicle. Tom Mathews is reported to be in stable condition. If anyone wants to send flowers or cards, contact Bob after the meeting.
- 2. He also reported that the meeting with President Clinton went well while the Leg Committee was visiting DC. In fact, the President was so impressed with the group's vast knowledge of legislative issues that he felt forced to resign from his position and appoint one of the committee members to complete his term. After feeling much pride and egotism, Clinton took back his offer after the group got into a fist fight because no one could come to a decision about who the appointee would be. Socks the cat was injured in the skirmish.
- 3. He informed everyone that he is now the guru of the Metro System. They will be dedicating a statue soon. Info will be provided later.

C Executive Cabinet (Grey)

- 1. Thomas refused to give a report.

- 2. A memorial will be given to the member of the Koffee Klutchers who finally went insane after too much coffee.

E The DC Incident (Alvarez/Rozovics)

- 1. Marisa and Janet apologized to the group for their misbehavior while meeting with Newt Gingrich. Marisa couldn't control her urge to punch him after he

stated his issues. They both locked him in his office after threatening him. He suffered a black eye, a dislocated shoulder, and a piece of his ear was missing due to the fact that, in a fit of rage, Janet bit whatever was closest.

2. They promised to visit him in the hospital at least once. Bob made them say sorry amongst the loud cheers of the Democratic party.
3. They were bailed out of jail with the remainder of the Student Rep fund.

F Bake Sale (Alvarez)

1. Marisa announced that the Bake Sale went well. Due to the enormous profits and the students of SRJC, the government did not shut down and we are now in the red. Good job, everyone!

M/S/C

VIII NEW BUSINESS

A There was no new business.

IX DISCUSSION ITEMS

A The Andrew Hour (Barry)

1. Taking a hint from Congressmen, Andrew wanted to develop a time when everyone could speak about whatever issue they wanted to, and he was going to start. He wanted to know how the group felt about the new proposal. He added that the meetings would now extend a few more hours.
2. After reminding him that this should have been under new business, they unanimously approved the new idea. The first topic will be Defense Weapons: How They Should Be Used on the American People Who Oppose Republicans.

X ANNOUNCEMENTS

A Legislative Protest (Alvarez)

1. Marisa announced that she thought there was no spirit at the school, so the group was going to start a protest for education. They hope that it will

develop into a riot, since that seems to be the only way to get the governor's attention. Bob will be supplying the Motolov cocktails. Teresa and Jennifer Branham will start the looting, and Abel and John Thompson will devise a plan to kidnap Pete Wilson.

Re: Conference Code Funding Request

Dear Executive Cabinet and SGA,

On behalf of Alpha Gamma Sigma Honor Society - Theta Chapter and its members, we the executive board would like to request Conference Code Funding for our annual state convention, being held in Asilomar, Monterey on April 12 - 14, 1996.

We are requesting funding for six members and our advisor, for a total of 7 attendees, in the amount of \$694.00 Which includes:

- a. Conference Fee: $\$150.00/2 = \$75.00 * 7 = \$525.00$ (1/2 cost for total conf. fee for 7 people = \$525.00).
- b. Transportation costs: Miles round trip = $362 * .31 = \$112.22/2 = \$56.11 * 3 = \$168.33$ (1/2 cost for total tranp. costs for 3 cars = \$168.33).

Moreover, all A.G.S. members requesting conference code funding are members of Associated Student Body.

The purposes for this conference are: One, to award scholarships to academically outstanding students who display consistent academic excellence and achievement; to award scholarships to students who have provided their voluntary services and talents and have made leadership contributions to their community college campuses, communities and A.G.S; Secondly, to educate and train students in leadership skills, student activism and academic issues.

Alpha Gamma Scholastic Honor Society Inc., is a statewide organization established in California in 1926 with its membership consisting of 107 community colleges across the state. The S.R.J.C. Theta Chapter was established in 1926 and we have been active on campus and within the community and the state for 70 years. Moreover, the purpose of A.G.S. is "to promote, maintain, and recognize scholarship; to develop programs offering cultural, social or enrichment

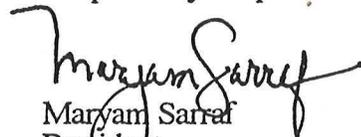

Alpha Gamma Scholastic Honor Society Inc., is a statewide organization established in California in 1926 with its membership consisting of 107 community colleges across the state. The S.R.J.C. Moreover, the purpose of A.G.S. is "to promote, maintain, and recognize scholarship; to develop programs offering cultural, social or enrichment experiences; and to promote service to the college and to the community" (per A.G.S. constitution).

Furthermore, Santa Rosa Junior College will be benefitted in many ways. First, by sending a delegation of A.G.S. members and 2 scholarship candidates, S.R.J.C. will receive recognition at the state level among more than 60 other community colleges attending. Secondly, A.G.S. members attending the conference who applied for scholarships, may be awarded with highly prestigious scholarships and thus, S.R.J.C. will receive recognition for its outstanding students, and the recipient of the award will be able to pursue academic and leadership interests either at S.R.J.C., or at another four year institution. Third, all members will get leadership training, which they can come back and use on the S.R.J.C. campus or at another institution of higher education. Lastly, those members who attend will come back and share their experiences with other members. We plan to conduct some sort of an official seminar regarding our experiences at the conference.

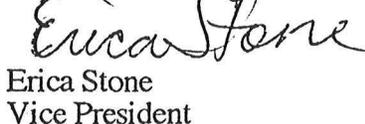

In addition, Alpha Gamma Sigma will submit a written report to SGA regarding the benefits derived by members who attended the conference, two weeks after the conference.

Thank you for your time and consideration.

Re: Egg Hunt event at S.R.J.C. Children's Center

Dear Executive Cabinet and SGA,

On behalf of Alpha Gamma Sigma and its members, we the executive board of AGS, would like to invite you to co-sponsor the egg hunt at the Children's Center S.R.J.C. This event will be held on April 4, 1996.

Last year SGA graciously helped support the egg hunt at the Children's center by purchasing chocolate bunnies for the children. This year again AGS has volunteered to fund and coordinate an egg hunt event for the children. Our members will be involved in this service to the campus. We have purchased:

Stickers, plastic eggs, easter grass, and cellophane, ribbon = \$47.79

chocolate eggs, peanut butter cups, assorted easter candy = \$115.01

Total=\$161.80

If you feel this is an event you would like to again support, please help sponsor the event by funding half the cost, \$80.00.

Thank you for your time and commitment to Santa Rosa Junior College.

Respectfully Requested,

Phi Theta Kappa Conference Funding Code Request

Four representatives from Phi Theta Kappa, accompanied by our faculty advisor, Dr. Ezbon Jen, have planned a trip to Washington, DC to meet with our congressional representatives and attend Phi Theta Kappa's 78th annual leadership conference. We will depart April 17, 1996, and return April 21; the conference is scheduled for April 18-20. We respectfully request funding from the SGA under the Conference Funding Code.

A) *Total funds needed for the conference.* We are requesting funds required to send four representatives to carry out this project. The Health Sciences Department will sponsor our faculty advisor's expenses. The Student Representation Fee has provided \$1955 (half of our expenses) to support the lobbying portion of this project. The attending members will make up the remaining funds required out-of-pocket.

Description	Total Cost
1/2 Conference Registration, \$57.50 ea., 4 people	\$230
1/2 Airfare, \$270 ea., 4 people	\$540
1/2 Airport shuttle(SFO), \$10 ea., 4 people	\$40
1/2 Airport shuttle(Wash), \$16 ea., 4 people	\$64
Hotel, \$10/night, 4 people, 3 nights	\$120
Food, \$5ea/day, 4 people, 5 days	\$100

Total amount requested \$1094

B) *Purpose of the conference.* The purpose of the conference is to develop the leadership and business skills of Phi Theta Kappa chapter officers and advisors. It will be an international forum with opportunity for sharing ideas and skills with a diverse group regarding such issues as dealing with the public and school administration, motivating members, scholarships, and implementing service projects.

C) *Which areas SRJC will benefit.* Santa Rosa Junior College will benefit in the following ways:

- As Beta Gamma Delta is SRJC's newly-chartered chapter of Phi Theta Kappa, this is the first year that the College will be represented in a Phi Theta Kappa International Forum.
- Our presence will enhance Santa Rosa Junior College's reputation by making our school known to a broader population, including influential members of business and government.
- The conference offers 15 intensive study tracks that will offer our officers an excellent opportunity to develop our leadership skills in order to make our chapter more outstanding in the community.

- The tracks will teach us how to motivate members to become involved and how to implement service projects, so that we can become more active serving our community as a club.
- Sharing experiences with representatives from established chapters from around the world will help us to develop new perspectives that will help Phi Theta Kappa cater to the needs of as diverse a student population as possible.

Along with our meetings with our congressional representatives, this trip will be very productive, and well-worth the cost. Thank you for your time and consideration.

Re: Update on Fundraising for the Mural

As of today, we have raised \$8,000 dollars and we are in the process of soliciting matching funds from foundations in order to complete the \$20,000 that are needed. This coming week, we are also sending out requests for proposals in order to begin selection of the artists.

Now that the funds for the Information Center have been approved due to the passing of Proposition 203, we will move much quicker since that is the place where the mural is to be located.

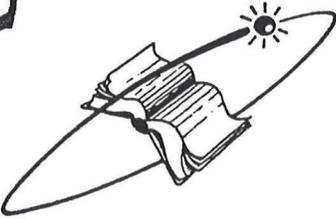

I want to thank all of you who have supported this worthwhile effort and will be keeping you informed of any further developments.

If you have any questions or suggestions for potential donors please do not hesitate to contact me.

Thank you.

Re: Teacher Appreciation Dinner

Dear Executive Cabinet,

On behalf of Alpha Gamma Sigma Honor Society, its officers and members, I would like to request for funding support from SGA for the AGS Teacher Appreciation Dinner. This semester in coordination with our AGS Awards Night Dinner, we will also be hosting the TAD. The purpose of the TAD is to honor past and present teachers who inspire us to our accomplishments by recognizing the contributions they make in our lives. Moreover, this provides our members with an opportunity to thank their teachers.

This semester we have been diligently organizing fundraisers in order to increase our club budget. Our core income is received from the membership dues and from the fundraisers we have every semester. Although some of our funds are recycled back into the club, the majority of our money goes back to the members in the form of scholarships at the end of each semester.

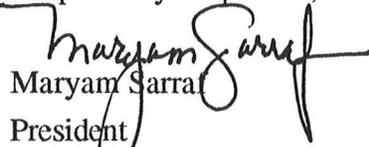

This semester we conducted a major membership recruitment drive which increased our membership by 54 new members for a total of 84. We also raised membership dues from \$5 for active membership to \$15 and from \$5 for inactive membership to \$20. We accomplished our goal of increasing our budget with both these fundraiser projects. However, we are currently in the process of creating new scholarships and scholarship amounts, from providing two scholarships a semester to providing approximately 6 new scholarships and increasing the two already existing. Therefore the money that we were able to generate from our membership recruitment efforts will go directly back to the students.

Equally important, we plan to have a TAD fundraiser, by conducting an "opportunity drawing." Our members are currently soliciting local businesses for donations which will be offered as drawing prizes during the event; but ^{since} [redacted] we have never done this in the past, [redacted] we can not anticipate the possible outcome or success of such a fundraiser. In addition, we are going to engage in the Day Under the Oaks event. This event in particular will require at least \$500 commitment from our budget. Therefore, in order to secure the success of all these events we need financial support.

Lastly, we plan to invite Dr. Agrella, the Board of Trustees members, and other members that have been particularly supportive of AGS. We plan to make this a campus wide event. We would appreciate any support which you may feel is appropriate.

Thank you for your time and energy.

Respectfully Requested,

Community Involvement Representative
Report for Spring 1996

The charge to the Community Involvement Representative as stated in the Constitution of the Associated Students is to:

Act as a liason between community groups and the Student Government Assembly.

As such I have been working with the principal of Steele Lane Elementary School to involve the students from SRJC in a volunteer project to upgrade the playing fields at Steele Lane school.

So far I have attended numerous meetings to try and find the appropriate way for JC students to be involved.

Besides meeting frequently with Mrs. Lockner of Steele Lane I have also attended meetings of the Santa Rosa Youth Athletic Field Trust, various community service meetings such as Lions Clubs and Kiwana Clubs.

At this time the project is being planned to begin in the month of May. The goal is to try and involve students as workers on the project rather than solicit funds from the Associated Students.

Sincerely,
Quane DeWitt

4/23/96

To: Dr. John Roberts
Budget Advisory Committee(BAC)

From: Theresa Rodriguez AS President
Born McGinley Student Wage Committee Chair
Student Government Assembly(SGA)

Subject: Student Wage Increase Proposal

Background

1. Over a thousand signatures have been gathered from students, faculty, and staff expressing concern that the student wage at SRJC is too low.
2. In a April 10 meeting with Dr. Roberts we were informed that:
 1. A 1% increase to the student wage requires a \$15,000 expenditure
 2. Funds necessary for the expenditure would be accounted for by Dr. Roberts
 3. The AS Proposal would be reviewed by BAC. Recommendations would be sent to president Agrella for presentation to the Board as part of the regular budget process.
 4. The budget for 96'-97' would be one of the healthiest in recent years.
3. Data obtained through the accounting office shows a YTD expenditure on student wages of \$1,016,678. Dr. Roberts estimates an additional \$250,000 will be needed to complete the fiscal year(see figure 1)
4. Data obtained through the personal department and Students Activities Office shows a large discrepancy between the increase in student wages and the increase in other SRJC employee's wages(see figure 2)

Request

1. We, the students, request a pay raise of 12.00 %(see figure 3). We feel this raise is appropriate and necessary in light of the figures presented
2. All department budgets shall be augmented accordingly
3. Any of the four represented groups on campus may make additional student work proposals during the 96'-97' fiscal year.

Pell Grants Made All the Difference for Many Community College Students

By FRANK MENSEL

Pell grants work. In countless lives, they spell the difference between marketable skills and rewarding careers, and the hopeless cycles of joblessness and welfare.

The latest verification of this has come from a survey of Pell grant alumni at North Central Technical College, Wausau, WI. North Central is the third community college to make the survey, which was instigated last year by the American Student Association of Community Colleges, with the cooperation of the American Association of Community Colleges, the Association of Community College Trustees, the American Association of State Colleges and Universities and The College Board.

"This sample confirms our belief that the country is realizing a very substantial economic return on its Pell grant investment," said North Central President Robert Ernst.

The Wisconsin responses fit closely the findings of two earlier participants in the survey—Snow College of Ephraim, UT, and Southwestern Community College of Creston, IA.

In each study, the school mailed the ASACC questionnaire to small random samples of former Pell grant recipients in three equal groups—those enrolled 15 years ago, 10 years ago and five years ago. Each college saw roughly half its mailing returned unopened because the recipients had changed addresses. "The fact that most community college are not tracking alumni very well has been a major obstacle to the survey," said Rob Sewell, president of ASACC. "ASACC asked more than 60 colleges to participate, but most begged off for lack of adequate alumni records."

The returns at all three colleges showed dramatic economic gain among the grant recipients after college. Among the Wiscon-

sin returns were these examples:

● A 1984 graduate with an associate's degree in nursing, whose family income in her college years was \$6,900 a year, is now earning \$34,000 a year.

● Another woman who completed her associate's degree in 1987 now is making \$50,000 a year, even as she studies toward a bachelor's degree in business and marketing. Her family's income in her college years was \$25,000.

● A 1986 graduate who had maximum Pell grants for three years in earning his associate's degree is now making \$55,000 a year.

The findings at the Utah and Iowa colleges were no less remarkable.

At Snow, the responses showed that two-thirds of the Pell recipients completed their associate's degree or specific certificate program, and one third had since completed their bachelor's degrees. One has completed

medical school.

At Southwestern, 31 of 35 respondents had completed a two-year degree. All rated Pell grants as "very important" to their accomplishments.

An Iowa mother first trained at Southwestern as a licensed practical nurse, who graduated three years later as a registered nurse, penned this comment on her questionnaire: "I went from AFDC (Aid to Families with Dependent Children) raising three children by myself, to RN and ADN. My income went from \$5,000 to \$35,000. I could not have made it without help at Southwestern with Pell grants." Along with supporting her family, she is making monthly payments of \$191 on her student loans of \$14,000.

Frank Mensel, former federal relations chief of the American Association of Community Colleges and the Association of Community College Trustees, is ASACC's national policy advisor.

To: Student Body Council

I'm a member of the Santa Rosa Junior College Swim & Diving Team of 1996. On April 26 and 27 the swim team at Sierra College won Bay Valley Conference both in Men's and Women's division. We would like to celebrate by making up T-Shirts like we did last year. The cost of these shirts as of today is as follows:

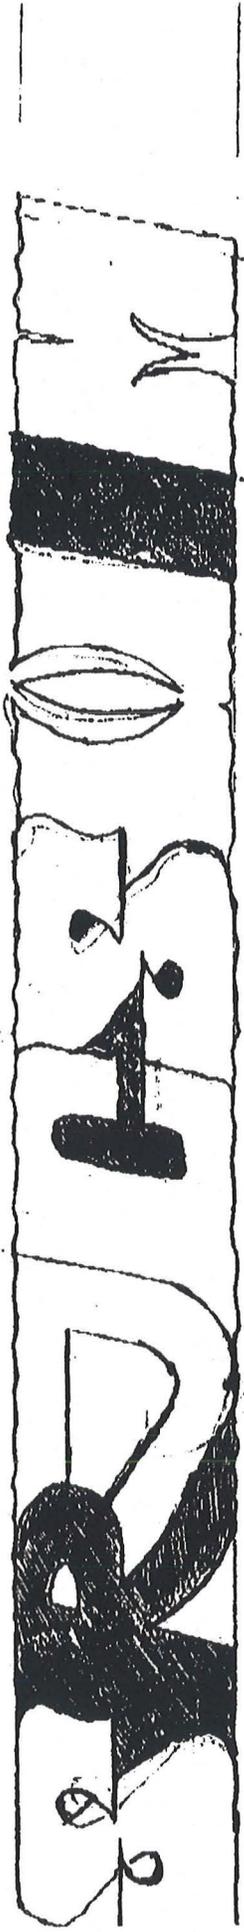

Art & Camera work \$30.00 per hour, 8 hours of work	\$240.00
\$25.00 per screen, 4 screens	\$100.00
Power-T Shirts 100% cotton all white	
6 dozen S, M, L, XL - \$5.22 each	\$375.84
XXL \$7.05 each, 4 Shirts	\$ 28.20
	<u>\$744.04</u>
Swim & Diving Team are willing to pay \$5.00 per shirt if the above amount is too much, total amount.	\$360.00
The amount asked from the Student Body then would be \$5.35 per shirt, rounded off to be.	\$385.20
Amount asking for to the penny is.	\$384.04

We're hoping that the student body will help us with the amount of money needed to make this project of ours work.

Sincerely,

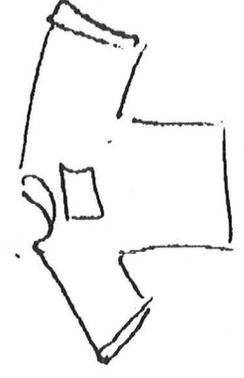

Robert David Ishmael

Marisa Alvarez

Novato, CA 94947

Dear Marisa,

The annual all-night safe and sober graduation celebration will take place on Saturday, June 15, 1996. For the past eight years Novato High parents have raised money and organized a safe and sober party for all graduating seniors the night of high school graduation. The party provides a drug/alcohol free environment for the class to celebrate graduation, reminisce and "play" one last time together. We parents have been working long hours to prepare for this event.

In anticipation of this event, we are writing to request your support of our volunteer efforts by donating merchandise, gift certificates or money. All proceeds will benefit the Novato High Safe and Sober Graduation Party.

Any consideration you can give our cause as a tax deductible donation for 1996 would be gratefully acknowledged. Please direct all donations to the address above, making money contributions payable to Novato High Safe Grad.

We appreciate your support of our endeavors and we look forward to your participation.

Sincerely,

NUCLEAR TEST BAN CALL-IN DAY

May 13, 1996

May 13 marks the start of the most crucial round of Comprehensive Test Ban Treaty negotiations at the Geneva Conference on Disarmament. After over 2,000 nuclear test explosions at more than 20 locations around the globe, isn't it time to finally seal the deal on the test ban?

Much is at stake. If the nations of the world fail to reach agreement on a Comprehensive Test Ban Treaty this summer, our best and perhaps last chance to permanently end nuclear testing may slip away forever.

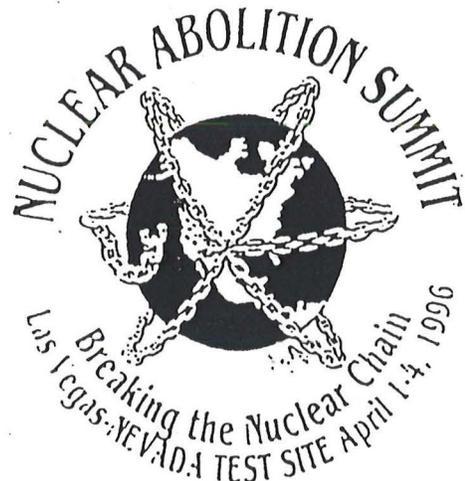

Call President Clinton
Monday, May 13, 1996
202.456.1111

- Tell the president to seal the deal on a zero-yield Comprehensive Test Ban Treaty by the end of June 1996 - no exceptions.
- Urge him to make the test ban treaty truly permanent by closing down the Nevada Test Site. Remind him that French President Jacques Chirac is closing the French test sites in the South Pacific.
- Tell the President to lay the groundwork for a nuclear weapons free 21st century.

Participants are encouraged to bring resources from their institutions to place in the Leadership Resource Center. This Center will be open throughout the workshop for use by participants.

Workshop Site:

The University of San Diego's 180 acre, hilltop campus commands inspiring views of the Pacific Ocean, Mission Bay, San Diego harbor, and the surrounding hills. Its 16th century Spanish Renaissance architecture makes the campus unique and picturesque. The University is within 15 minutes drive of the San Diego airport, as well as some of the city's major attractions.

Workshop educational sessions will be held in the University Center. Delegates will be housed in San Dimas Missions "A," a residence hall located near the University Center.

activity and the ultimate objective of advocating for student interests. Obviously some nexus is required, but for the reasons set forth below, we believe indirect support of the kind provided by the enumerated activities is sufficient.

First, we observe that all financial support for student representatives is indirect in a certain sense. For example, if the president of a student body association testifies before a legislative committee, the costs associated with his or her travel to the capitol can be said to "support" this legislative activity and there seems little doubt that these costs could be paid from revenue generated by the student representation fee. But these expenses are not incurred for activities which occur at the capitol at the moment the testimony is being delivered--they are incurred for activities which occur at other locations either before or after the actual legislative hearing. Travel expenses are only payable from student representation fee revenue because they indirectly support and make possible the representation activity.

Attending a conference or using a computer to obtain information necessary to prepare to give testimony would seem no less directly related. Indeed, it would seem absurd to suggest that student representation fee revenue could be used to get a student representative to a hearing but not to prepare him or her to speak intelligently to the issues at hand.

It should be noted that disseminating legislative information to students presents a slightly different issue. Here we are not dealing with supporting representatives in their efforts to advocate, but Section 54805 seems to encompass even this activity because it states that funds can be used to support "students or representatives." If individual students are to express their views to elected officials, they must have information and paying for the costs of disseminating this information would seem to be an appropriate use of student representation fee revenue.

This reasoning is consistent with the approach we took in Legal Opinion L 91-15 in which we concluded that, in view of the permissive code, Section 54805 should be interpreted to "afford districts the maximum flexibility" in use of student representation fee revenue.

Conclusion:

Thus, we find that student representation fee revenue can properly be used to pay for all of the listed expenses since they directly or indirectly support students or student representatives in presenting their views to governmental entities.
